

Welcome Barbara Dahn & Her Lovely Collages

We are very happy to welcome Cazenovia resident Barbara Dahn and her lovely collage art to our cooperative. We strive to bring you new and different art, work that you cannot easily see elsewhere. Barb's collages are most certainly that: lovely, unusual, handcrafted art. Come in to see Barbara's work, including small scale works of art: her gorgeous greeting cards.

Most of Barbara's work is collage. She "paints" her pieces with either papers she makes herself or the decorative paper made as an art form in many places around the world. She also use fibers, inks, paint, prints, stamps and whatever else is close at hand. It is very much a layering process with the use of color creating depth and other elements. Fibers and inks create detail. Barbara starts with an image from nature that she is trying to capture, although many of her pieces can become somewhat abstract. Her hope is to help you appreciate the places in nature she loves - the woods and mountains and streams of beautiful New York State.
