

## Help Us to Celebrate Our 5 New Members

---

The last several months have been busy and exciting for all of us here at Cazenovia Artisans. Since April 2017 we have added 5 new members! Rather than celebrate each one with their own reception, we've decided that this is one of those times when bigger is definitely better. So on Saturday, September 30th, from 5-8pm, we will have a great big reception to celebrate all of them together. We hope you can join us!

---

**Maria Wiklund** makes lovely accessories, including shawls, scarves, pins, and small purses from felt that she makes herself using a process called

"nuno felting". Maria has a wonderful design sense and finely honed ability to find colors that work well together.

---

**Betsy Sio** searches all over for just the right tins: those with vibrant colors and interesting patterns. Then she makes these tins into great shapes. And eventually they become the most interesting and fun earrings that you have ever seen!

---

**Shawn Halperin** starts with simple, straightforward blocks of wood and transforms them into delightful birds, ready to launch into flight from our walls to your home. Her new designs never sit still long!

---

The problem with **Leslie Green Guilbault's** pottery is that there is just so much beauty to choose from! Leslie produces five distinct lines, including these practical tiny pots lined with fused recycled glass. A heartful of gorgeousness!

When **Dave Eichorn** retired from meteorology, it gave him more time for his creative pursuits. He now makes beautiful, one of a kind furniture from a wide variety of hardwoods. His furniture is all lovingly hand made and meant to be enjoyed by many generations.
