

COVID-19 Safety Procedures

There is no higher priority for us than the health and safety of our patients, staff and families. Our pain clinic is open for in person clinic appointments and procedures. We will continue to offer virtual appointments for patients who are unable to come into the clinic due to being a high risk patient.

If you schedule an in-person office visit, please know our team continues to take extreme precautions to ensure everyone has a safe experience. This includes the following:

- ◆ The doors to the clinic will remain locked and no one will be admitted to the clinic unless escorted by a team member.
- ◆ When arriving to clinic, please call 307-696-2996 to let us know you are here and for what purpose.
- ◆ All patients should wear face coverings during their visit, but this is not a requirement. Patient needs to bring their own mask.
- ◆ Only the patient will be allowed in the clinic during the visit, if a chaperone is required a team member will be available. Please let your family, friend, spouse or partner know that they will need to remain in their vehicle.
- ◆ Our team members are screened daily to ensure your safety.
- ◆ Our team members will be wearing appropriate face masks to ensure your safety.
- ◆ We sanitize restrooms, exam rooms and counters after each patient.
