

SUMNER SOUTH - DCT INDUSTRIAL - SUMNER, WA

INNOVA provided architectural and structural services for this 188,390 SF tilt-up concrete warehouse shell and designed the T.I.s for the two building tenants: Composite Solutions and Diono. Located between two historical homes listed on the national register, the building needed to be appealing so it would be well received by the City of Sumner Design Review Council.

ABOUT DIONO

Diono designs and manufactures convertible car seats, high back and backless boosters, storage solutions, and related travel and stroller accessories that have earned the trust and respect of parents around the globe. They have more than 100 product offerings available in 54 countries with offices in the U.S., United Kingdom, Canada, France, Germany, Hong Kong and China.

ABOUT COMPOSITE SOLUTIONS

Composite Solutions manufactures high strength, lightweight composite structures and components for commercial and military aircraft, helicopters and business jets. They have extensive experience with commercial aerospace and defense contracts including Bell Helicopter, Boeing, McDonnell Douglas, Raisbeck Engineering, Airbus, Beechcraft and Sikorsky.

ABOUT INNOVA

INNOVA is an architectural, engineering, planning, and design firm in Tacoma, WA that specializes in industrial parks, warehouses, distribution centers, manufacturing plants, aerospace facilities, offices and commercial retail stores with service centers.
