

# Hullett Marsh 2024 Water Levels

## Compared to 2023 levels

(Based on water DUC structure settings and summer precipitation in 2024)

- As always **preseason scouting trips** on foot or in a canoe/kayak will help you find **access routes** to pools based on current water levels
- **Successful** waterfowl hunters **scout** many times throughout the year to determine what areas **birds are using**
- Water level adjustments are governed by **Ducks Unlimited Canada (DUC)**
- **Major rain events will raise the water/dry periods will evaporate water**
- November and December will see levels rising

<b>Zone A Pools</b>	<b>2023</b>	<b>2024</b>
<b>Bluebill</b>	Average	Higher
<b>Bluewing</b>	Average	Same
<b>Butterball</b>	Average	Same
<b>Mallard</b>	Average	Same
<b>Whistler</b>	Average	Same
<b>Pintail</b>	Average	Higher

### Zone B Major Pools:

- The **Woodie Pool** is higher in depth in 2024
- **Greenwing Pool** is the same as 2023 with high levels
