The "Nest" is full of meaning such as home, family, brotherhood, safety and security. The "Hands" cradling the nest represents the many that will wrap their support and give services to the Veterans and military members to help reintegrate them back to their families and into their communities.

Many of our military are struggling and need programs with a caring hand to assist them. Eagle's Healing Nest will

help foster purpose and direction. Our service member's families, who also serve our Country, deserve the resources, support and best treatment available. Eagle's Healing Nest provides this.
