

Macon Whoopee 2001-02 Vic 750 SR game used pants, size XL.

These black Vic hockey pants were obtained from an eBay auction from a seller in Macon. The presence of the embroidered bird and a bee logo on the right thigh suggests to me that they were from the Whoopee's ECHL season rather than from the CHL. Since the Whoopee folded and relocated to Lexington after their one and only season in the ECHL, this is just further evidence that these pants were obtained directly from the team at an equipment sale prior to their relocation.
