

HCGMS Covid-19 Update – May 4th

We will not be having our regular Gem and Mineral Meetings until the community center is allowed to open and the governor reduces his restrictions on the number of people that can meet. He must increase it to more than ten or eliminate the restriction.

The show has been canceled for May. We may try to have it later in the summer, possibly July. We plan to have another Skype meeting on May 26 to discuss this & other Gem Society issues. If you are a member in good standing and are interested in joining this meeting please download Skype onto your computer or smart phone, set up an account and email Lynn Tate (gulfportgems.show@gmail.com) to let her know so that you can receive an invite to the meeting.

The workshop originally scheduled for March will be the 1st workshop when we reconvene our monthly meetings, provided the instructors are available that month.

Please check back for new updates and Stay Safe!
