## **BEASTIE PROSTHETIC APPLIANCE SETS** ***(Perfect for productions of "Beauty & the Beast")***

### **FOAM LATEX BROW/CHIN SETS**

- Appliances are made from hot foam latex and "skinned" with latex for maximum mobility, as well as uses. If applied and removed carefully, these appliances may be used for Beast makeups 2-4 times. They are packaged on a plastic painting/storage form, and may be ordered fully painted w/ tusks & eyebrows, or "raw" (unpainted). Tusks are made from lightweight acrylic and glued into the bottom piece. *(They may be pulled and reattached to new pieces, so a new set of tusks is not needed for each face)*

Complete Set, painted w/ eyebrows  
and tusks \$115

Painted w/ eyebrows (no tusks)  
\$95

Unpainted – no eyebrows or tusks  
\$65

Extra tusks \$20/pair

## WIG/BEARD SET

Long, full curly brown/dark brown wig with beard and horns. The beard easily attaches to both sides of the wig at the sidburns and fits just under our chin prosthetic. The horns are a lightweight polyfoam, attached to a plastic/felt headband and sewn in the wig.

Complete Wig/Beard set with  
Horns attached  
\$150

## HORNS ONLY

(May easily be sewn into wig for  
stability/security)

\$50

## FULL FACE LATEX BEAST

This is the same sculpt as our two-piece brow/chin as above...but all in one full latex face, painted w/ eyebrows & tusks. If using one performer for “transitioning” from the Beast into Prince...this face is substituted for the appliance makeup above, so that it may quickly be slipped off in one piece to reveal the “Human” form.

(Picture coming soon.)

\$85
