No Show/Late Cancellation Policy

This policy has been established to help us serve you better.

We strive to provide our patients with excellent service and quality care. Our commitment to your well-being and health care is something that we at Personal Physical Therapy take very seriously. Your commitment to your physical therapy program is critical to your success. We will recommend treatment and set goals with you. In order to reach those goals you must do your part, and your most important part is to make each and every appointment.

A 'No Show is missing a scheduled appointment without cancelling first. A 'late cancellation' is canceling an appointment without calling us to cancel 24 hours in advance.

We understand that situations as medical emergencies occasionally arise when an appointment cannot be kept and adequate notice is not possible. These situations will be considered on a case by-case basis.

A charge of $25.00 will be charged for each late cancellation if less than 24-hours notice is given.

A charge of $50 will be charged for each no show.

Repeated cancellations/no-shows may result in removal from our schedule.

Please understand that insurance companies consider this charge to be entirely the patient's responsibility.

To cancel appointments, please call 508-481-5519. Please do NOT text or email. If you do not reach the receptionist you may leave a detailed message on the voice mail. If you would like to reschedule your appointment, please leave your phone number. We will return your call and give you the next available appointment time.

If you 'No-Show' for an appointment, you will have **24 hours to contact us** to confirm your next appointment. If we do not hear from you within that time, **your remaining appointments will be cancelled**.

We thank you for choosing ***Personal Physical Therapy.*** We look forward to working with you and helping you reach your goals.

Our Financial Policy
Regarding Insurance Deductibles

What is an insurance deductible? The **deductible** refers to the amount of money that the insured (the person covered by a health insurance policy) must pay out-of-pocket before the insurance company will pay any expenses. This is usually an annual amount so when the policy renews, usually after a year, the deductible would reset to its full amount. Some services, like doctor visits, may be available without meeting the deductible first. Usually there are separate deductible amounts for each individual covered in the policy, as well as total family deductible amounts.

Most insurance policies now have large deductibles. Insurance companies will not begin to pay for your therapy visits until you have paid your entire deductible. You are responsible for the entire dollar amount of your deductible.

As a courtesy, our Staff strives hard to educate our patients on their insurance requirements and any dollar amount remaining on their deductible. Deductibles are annual and their amount may change from year to year. Ultimately, you are responsible for any dollar amount of your deductible that has not been met. *Personal Physical Therapy* does not receive any reimbursement from your insurance until you meet your deductible. We bill the insurance directly and receive statements showing what we need to collect from you for your visit(s).

If you have a deductible and it has not been met, *Personal Physical Therapy* offers two options of payment:

1. You can leave a credit card on file and we will charge your credit card when the insurance statements come in. We will then mail you a receipt along with a copy of the insurance statement.

OR

2. You can pay at the time of service. We will still bill your insurance so you receive credit toward your deductible. The cost of a first visit is $100. The cost of therapy after the first visit will be the cost of the contracted rate of your particular insurance, or $70 if you are not going through insurance.
