The 13-Story Treehouse is about two characters, Andy and Terry who live on a 13-story treehouse complete with a bowling alley a tank full of sharks, a library full of comics, a secret underground laboratory, and more. The story follows Andy and Terry as they try to complete their book on time without getting distracted.

I enjoyed this book a lot. The illustrations and text come together to create a funny and entertaining book. This book is a mix between a book and a comic which would make it great for young children, boys especially, that are just getting back into school mode or kids that are semi-reluctant to read. It is a short book so it would be a great confidence booster. However, the plot is very simple and more advanced readers might find the book a little too straightforward. The book does not have big thought-provoking themes, but it is an entertaining book.

I would recommend this book for 7-12 year old boys. Older kids might find the story too be a fun quick read if they do not mind the simple plot. I would recommend this book to be bought as a gift. The amazing illustrations and funny humour makes it a story that you can pick up a few years later and still enjoy. It is also a short book that is easy to reread often.
