The end of the world is coming with a young antichrist, but heaven and hell have seemed to have misplaced him. The angel Aziraphale and the demon Crowley have been trying to nurture the wrong child, and not knowing who the real antichrist is, they set off, trying to find the real one before Armageddon. Because the thing is... they have really grown to like this world, unlike other angels and demons, and the antichrist is the only one capable of altering the coming catastrophic events.

My best friend recommended me this series after the Amazon Prime version came out, and I can now see why she likes it so much! While there were some parts I couldn't follow due to the way the dialog was set, I enjoyed the plot and it was a type of humor I enjoyed. The book and the series, while they have some differences, are both amazing, so if a watcher of the show has not read the book yet, I would recommend it to them, as well as those over 13.
