Attack on Titan (Shingeki No Kyojin) is a manga series about a war between humanity and titans. There are three walls in the story, in which humanity resides in. Nobody leaves the walls except the Scouts. The Scouts are a group of people who are able to leave the walls and help protect humanity from the Titans. The main character, Eren Yeager, lived in one of the walls called Wall Maria, and had always looked up to the Scouts since he was young. He wanted to be able to grow up and help fight Titans with them. One day, Wall Maria was breached, and had fallen because of titans. Eren Yeager was able to escape getting eaten, but only after he had seen his mother get killed by a Titan. Everything inside of Wall Maria was destroyed, and after Eren had seen the power of the Titans first hand, he declared "I'll kill every last one of them and break free of these walls!"

I personally really enjoyed this series! Attack On Titan is a complex story, and as you read on, you learn more and more about the secrets of the Titans and everything that has happened with humanity inside and outside of the walls! I like that this manga has a lot of well written characters, and I also like how there aren't specifically any "good" or "bad" guys. This story is completely about perspective and how the readers choose to view these characters!

Attack On Titan would be an appropriate story for anyone ages 11 and up! There is a lot of gore, death, and violence in this story, and sometimes vulgar language is used. This series would be a great gift to give to someone, even if they've never read a manga before! It's an amazing story, and I hope more people decide to enjoy it!
