My Little Lore of Light is basically about the prophets. And in each chapter it has a short story about the prophet. For example; Chapter 2 Prophet Adam has a story about Adam and Eve. However, you'd think what does the title have to do with anything? The part about the light is about the light that shone off the faces of the holy prophets.

I really liked this book because it was educational but not in a boring way. Even though I know a lot about Islam this book taught me many new things. Because of the fact that the author herself says that this book is the same book as *The Lore of Light*, except this one is for younger kids. I would recommend to 1st - 6th graders. This is a book that should definitely be sold at book stores and it should also be at the library. I think that some people would buy this book as a gift for their daughter/son or even friends.
