This book is about a boy named Rob, who has a closet full of books and science experiments. One day, a little creature came out from the closet. The creature was a mix of Willy Wonka and Frankenstein. They then go on many exciting adventures together. Rob is a very troubled kid in this book, so Wonkenstein helps Rob through his troubles.

I liked this book because I liked how Wonkenstein helped Rob through his problems. Also how they went on many adventures. I liked the way they had so much fun during their adventures when they did so many things together. It was so sad when Wonkenstein had to leave when he finished his mission. If you want to know his mission you will have to read this book. This book is very suspenseful and a great mystery. This is also a great book to read if you like fantasy because this book has a lot of made up characters.

I recommend this book if you like mystery, fantasy, and comical books. This is a great read for children over the age of 8. It's a quick read book, so if you want to read a book in a few days this book is for you. You will absolutely love the excitement this was a great little book, I hope you enjoy it!
