*Nobody's Princess* is an amazing book that charms you and makes you want to laugh. With an intriguing and action-filled storyline, plenty of drama, and twists that just make you want to read on and on, this book is a stunning tale that inspires me. The way Helen gets what she wants with all that determination and sass is admirable.

I love how dramatic the scenes are, and how descriptive they are, too. I feel like I *know* Helen, and I've been through everything that she has gone through. I feel annoyed with Milo when Helen is annoyed with Milo, and I feel sad when Atlanta leaves- like Helen. The way it's written just makes you feel like you're *there* and you really can *connect* with Helen... it's an amazing feeling.

One of my favorite lines is when Ione says that she's going to make it rain, and she spanks Helen, which makes her cry. It makes me laugh, even though I feel sorry for Helen, because her crying is the "rain" Ione makes. Amazing how Friesner manages to make something like that sound funny.

I can't find any flaw in this book, other than the fact that it *ends*. I wish Helen's story went on and on! This fun-filled, descriptive tale will keep you coming back for more. With admirable story-telling skill and a narration that makes you giggle, *Nobody's Princess* is a must-read, for all ages and genders.
