*A Dirty Job*, by Christopher Moore is a hilarious story about Charlie Asher and his adventure after becoming Death. The novel starts with Charlie in a hospital, right after his wife has given birth to their first child Sophie. When he is about to leave after the nurses force him, he sees a man in a green suit kneeling near his wife. He then approaches the man and the man is surprised by the fact that Charlie can see him and quickly runs away. Eventually he realized the Rachel was dead and he connected his wife's death with the man in the green suit. As he goes on his adventure to find the man who killed his wife, people start dropping dead around him. This is when he starts to receive notes and thus begins his job as Death.
