I have been on a zombie book reading spree and *The Forest of Hands and Teeth* has to be one of the best I have read so far. It was filled with everything a diehard zombie fan would want and more. The characters of the story are well thought out, and display their bravery as well as their fear in ways that it feels like you know them in person. The zombies are very, very realistic and I could picture every scene of the story in my mind.

Although this book was great, I have one negative note to add. There was too much touchy-feely romance in this book. I recognize the author's intent to bring a romantic thriller, but it felt way to romantic for me. If you like gory and nasty thrillers this might not be the book for you but I would still tell you to give it a try. All in all I would give *The Forests of Hands and Teeth* a Seven out of ten.
