

Reaching The World With Life Giving Water For Those In Need

LIVING WATER

Contaminants Reduced

Reduces 99.99%*

Waterborne Bacteria: E. coli, V. cholera, S. typhi, etc.

Reduces 99.99%*

Waterborne Protozoa: Cryptosporidium parvum, Giardia lamblia, Guinea Worm, etc.

Reduces

Organics: Pesticides, Herbicides, Viruses, THMs, VOCs, etc.

Turbidity: Down to 0.2 microns

Filters: Dust, Sediment, Taste, Odor, Particles

Non-Organics: Asbestos, Arsenic, Lead, Uranium, Mercury, Copper, Fluoride, Salty Water, Iron, Calcium, etc.

Model: LWSC-1P

PRODUCT FEATURES

- FILTERS UP TO ~300 GALLONS*
- USES 7 LAYERS OF FILTRATION
- NO SHELF LIFE
- NO BATTERIES REQUIRED
- NO MOVING PARTS
- NO CHEMICALS USED OR NEEDED
- CAN BE USED IN SHALLOW WATER
- CAN BE SCREWED ON TO WATER BOTTLES FOR ON-THE-GO USE
- CAN BE CONNECTED TO RESERVOIR FOR FAMILY USE
- CAN BE CLEANED BY BLOWING THROUGH FILTER & DISINFECTS BACKWASHED SALIVA
- USES 0.2 MICRON ULTRA FILTRATION MEMBRANE

Uses NSF Listed Materials

SPECIFICATIONS

Model Number	Service Life	Dimensions	Weight	Water Temp
LWSC-1P	300 gal (1100 L)*	8" (20 cm) x 1.5" (3.8 cm)	5.6 oz (160 g)	40° F(4° C) - 125° F(51° C)

*Actual service life production and reduction will vary depending on water turbidity, temperature, pressure, TDS, and contaminant concentration. Depending on water quality cartridge may only last ~30 gallons. Drinking microbiologically unsafe water may expose you to harmful microorganisms and increase your risk of gastrointestinal diseases.
