

# How Many 1-in-a-Million Events are we to Believe concerning → 9/11

*Many more circumstances occurred than are mentioned on this one page. Seemingly, there's dozens of events, which each on its own prove 100% this wasn't merely Islamic Terrorists.*

**1 month prior – One side of pentagon closed for repairs** Truth – weakening structure and rigging explosives. Every 20ft. in every direction exists a wide concrete pole w/regular & spiraled rebar steel. Extremely expensive, so hardly used anywhere besides Pentagon. Therefore, this building was the most secure in the world.

Sept. 10<sup>th</sup>, 2001: D. Rumsfeld announces **\$2.3 Trillion** stolen from Pentagon. Where did this military \$ disappear to?

**Pentagon hit by a plane on the identical side the construction crews worked for the past 30 days!**

*A few Arab Muslims hijack a Jetliner with nothing but a boxcutter, yeah right! Then apparently....*

**Flew a 727 in a 270°/8,000ft descending corkscrew turn, to become perfectly level w/the Pentagon exactly prior to impact** Truth: No pilot could perform this especially w/o mapping of scene & experience performing maneuver (the accused Arab couldn't fly a single-engine)

**3 Planes Fly Wildly Off-Course for Over 1 Hour Undetected** (not true, workers report making the alert calls)

**In NYC – 2 Planes demolished 3 buildings** Truth: 3 commercial Jet-liners impose zero ability to simply collapse 1 of the Trade Towers  
Planes designed lightweight for air-travel & to instantly fold-up on impact with steel. Unthinkable for a 767 to demolished *massive* amounts of steel. The cone (front) and the wings of the plane are unbelievably seen in videos existing through other walls! The cone of the plane exits the far-side without a dent or scratch on it; could NEVER get through the dozens of walls, 2X4 studs, electrical, and furniture – never-mind the entire amount of steel from one end to the other! \*\* The type of Anthrax mailed was proven to only exist in the U.S.

Truth: † Planes fireball was seen exploding completely outside of skyscraper. † The Jets could never penetrate the outside wall of steel, never-mind the exist the opposite side undamaged. † Jet fuel (no matter the amount) burns 1,200+ below the needed temperature needed to bend steel.

**The computers able to trace the \$2.3 Trillion just happened to be positioned on side of the Pentagon closed-off for renovations**

**Only other CIA building in the world able to trace the \$2.3 Trillion...Just happened to be World Trade Building #7,** which C.I.A. agent *Malcolm Howard* admitted this demolition required transporting thousands of pounds of explosives into the building which housed offices of multiple Intelligence Agencies. Once, again fire cannot bend steel & viewing the building; was an obvious controlled demo.

**Under the Trade Towers was the 2<sup>nd</sup> (or 3<sup>rd</sup>) largest gold reserve in the world, an estimated \$100 Billion** The Truth....  
A 10-wheeler truck discovered under buildings loaded with gold bars and a multiple car escort abandoned because the first Tower had already collapsed. An obvious robbery was occurring. R. Giuliani announce only \$232 million was recovered – sure!

**Rockefeller had sold the 2 Towers to Silverstein for slightly under ½ a billion dollars just months prior in 2001**

Silverstein then hires a group of *Israeli Art Students* who surprisingly are given unrestricted access to all areas of the Towers! (Apparently, art students trained in explosives) After the collapse, Silverstein receives \$4 billion from the insurance. Multiple attacks since 9/11 have also occurred on Rockefeller property. (e.g. the recent van driving over civilians in Manhattan). \*\* Already preparing for Iraq, the MSM falsely claimed they had Anthrax

† **President of the U.S. forbids an investigation into the largest attack on America soil in its history!** †

**A Group of Congressmen cannot believe this absurdity and begin protesting; all the while the wreckage continues burning.**  
After 10 days of investigation demands, Bush, Wolfowitz, Rumsfeld, Cheney & other members of the C.F.R. cannot stall an investigation any longer. Whereupon, **ANTHRAX** (only produced & stocked in U.S. & Russia) begins distribution through the U.S. mail (supposedly).

**Next 1 in a million event:** Only the protesting Congressman are recipients of the anthrax mail. Thereafter, families of the deceased begin furiously lobbying Washington for truthful 7 official investigations to occur (how could they not!). After an **entire year**, the govern. Cannot silence them, therefore, set-up the 9/11 commission **headed by an Israeli** (that's correct, the deadliest attack on the U.S.A. and the commission was headed by a foreigner). The family *members hold-up signs in the crowd accusing* the commission as being phony and blaming our government & Israel for the attack. Some simply say "Liars," However, the MSM never show the families in protest.

**A German company recovers absurd insider-trading of (would NEVER have bene done) \$ millions occurring on 9/11**

just prior to attack via hard-drives recovered from wreckage.(perpetrators thought this impossible) A sure sign these people had knowledge of what was to occur. All these individuals had also existed the Towers before the first attack. The wreckage was smoking over 1 wk. post-9/11: **definite proof** explosives were used. The recovery effort was even delayed after workers were identifying glowing chemicals or witnessing holes burnt through steel. Furthermore, the gold bars under the wreckage was the # 1 concern; not recovering the victims.

**Operation Blue Sky Paper:** was the sending of troops to Afghanistan in the spring of 2001. Bush family ex-business partners the Taliban, began destroying all the Opium Plants. Therefore, the Northern Alliance would become the Bush families new Drug-Trafficking Partners; just as Noriega once was. (when that relationship failed), Bush 41 invaded Panama. President Reagan also accused Bush of heading Iran-Contra to import cocaine. Skull&Bones 1<sup>st</sup> began using Opium \$ imported into China.
