

Making Memories with help from our Community Partners

The Morningstar Living Memory Café is now in its 5th year of providing a free program for those caring for loved ones at home living with dementia. The Memory Café program has served hundreds of individuals by providing a welcoming environment for socialization, learning, creativity and fun.

Morningstar Living staff plan and execute themes for each café that guests can enjoy. The program has a community of supporters that offer hands-on help, special projects and outings, snacks and exposure to learning new things!

The Bethlehem Garden Club has been an active supporter of the Memory Café, providing several seasonal activities for the guests. Club member Liz Lorenz recently organized an Earth Day themed program with the origins of Earth Day, recycling information and a planting project that included help from additional club members.

Local sites have welcomed our Memory Café folks to visit and learn about their operation including America on Wheels, Lehigh Valley Museum of Industrial History and the Bethlehem Mounted Police. Informational presentations have been offered by the Easton Farmer's Market, Donegal Square, Lehigh Valley Veteran Affairs, Meals on Wheels and Penn State Extension.

Earth Day

Museum of Industrial History

Talented local musicians and wellness specialists have generously shared their talent and expertise on many occasions. It is so gratifying to have this outpouring of support and kindness from those in our community – we are truly all in this together and making a difference for better!

The Morningstar Living Memory Café program meets twice each month on the 2nd and 4th Thursdays at Advent Moravian Church, 3730 Jacksonville Road in Bethlehem. Those interested in attending or being a community supporter should call Morningstar Senior Solutions at 610.258.0700.
