Watershed Christina Callaway**

Photography Program:

Rick Wright, a Philadelphia-area professional photographer, speaker and workshop leader, is a longtime friend of the Princeton Photography Club and The Garden Club of Princeton. He likes to locate a narrative in every shot and then push that idea with lighting, precise vantage points, subtle styling and welcome “accidents.” His talk is titled, “Unconsciously Unskilled in the Architect-ing of a Landscape Photograph.”

THURSDAY, NOVEMBER 14, 2019

**NJ Committee: Fall Luncheon Canoe Brook Country Club
Speaker: Cathy B. Graham Summit, NJ**

11:30 am Luncheon Begins

This annual luncheon features Cathy Graham, a well-known stylist, designer and artist. She has recently published a book, Second Bloom, filled with photos and drawings of her creative designs for New York City galas and parties from invitations to centerpieces. She is a delightful speaker. The luncheon is the major fundraiser for the horticultural scholarships our NJ Committee sponsors. The prized and hard-to-get Garden Club of America daffodil bulbs will be available. There will also be a few, small boutique shops. Tickets will go on sale in October. You must purchase your ticket directly. Please contact Betsy Hoover with any questions. We will carpool.

MONDAY, NOVEMBER 18, 2019

COSMOS: Preview Party 5:00 p.m. - 7:00 p.m. The Bedens Brook Club

WEDNESDAY, NOVEMBER 20: 9:00 a.m. – 3:00 p.m.

COSMOS: Shopping Boutique The Bedens Brook Club

Our biggest fundraiser of the year, COSMOS is a carefully curated pop-up boutique for fun personal shopping and unique gift giving. A portion of the sales proceeds received from COSMOS support the community projects of The Garden Club of Princeton. This event is open to members, your friends and the public. There is no admission fee. A sit-down luncheon will be available for purchase on both Tuesday and Wednesday. Please come and make this event an even bigger success than last year!

SUNDAY, DECEMBER 8, 2019

**Visiting Gardens 1:00 p.m. - 9:00 p.m. Kennett Square, PA
Longwood Gardens**

A bus will depart from Farmview Fields, 551 Great Road, Princeton, at 1:00 p.m. to take us to see “A Longwood Christmas.” We will enjoy the indoor Christmas displays and decorations. Once the sun sets, we will appreciate the spectacular light display outdoors. At 6:30 p.m., we will board the bus and enjoy a boxed dinner as our bus returns us to Princeton by 9:00 p.m. Please note, spouses, children and families are encouraged. Cost is TBD. RSVP to Emily Firmenich at emily.firmenich@gmail.com.

TUESDAY, DECEMBER 10, 2019

**Meeting and 9:30 a.m. *Pam Mount
Christmas Workshop The Provisional Class
Terhune Orchards**

At our annual Christmas Workshop, we will make miniature Christmas arrangements in small tin cans using greenery and berries from member gardens, as well as other embellishments. The arrangements will be given to Meals on Wheels to provide holiday cheer for their clients.

Floral Design Committee

Workshop: Flower Pot Treat Holders

Immediately following the Christmas Workshop

During this hands-on workshop, Jennifer Fenton and Polly Edelman will teach us how to make Flower Pot Treat Holders. Using yarn, glue, and buttons, we will transform clay pots into Santa gifts. Filled with homemade cookies, succulents or flowers, they are the perfect gifts for teachers, friends or yourself! All materials will be provided. Lunch will be served. Cost is \$25.

RSVP to Noelle Ridings at Noelleridings@gmail.com.

FRIDAY, JANUARY 10, 2020

Photography Committee 10:00 a.m. – noon Penny Thomas

It's getting close to show time! Bring a maximum of three photographs on a thumb drive, but not images you plan on showing, for a critique to learn how to make your good photographs even better. We will have experts on hand to do the critiques. RSVP to Penny Thomas at mbtedt@gmail.com.

FLORAL DESIGN, HORTICULTURE AND PHOTOGRAPHY RULES

- Show entries will be accepted **only** at times indicated in the program. PROMPTNESS IS IMPERATIVE.
- All materials should be accurately labeled. Protected and/or endangered species are not allowed. For exceptions, see the Floral Design rules.
- Questions may be directed to the horticulture show captain or the floral design show consultant. Entry cards and practice niches may be obtained prior to shows.

FLORAL DESIGN CLASSES:

Floral Design classes may be divided into two divisions, A (Experienced) for anyone who has ever won a blue ribbon and B (Novice) for all others.

- Unless otherwise stated in the class description, fresh and/or dried plant material is required in all classes. Artificial plant material is not allowed.
- Manipulation of plant material is encouraged. Anything fresh or dried may be colored.
- Fresh plant material must be in water or be conditioned in such a way as to remain in pristine form while on exhibition.
- Mechanics should not be visible unless they are an integral part of design.
- Fruits and vegetables are allowed only if stated in the schedule.
- Live animals (including fish), taxidermy and natural bird's nests or feathers are not permitted.
- Locally protected sea life (such as a few types of rare coral) is not permitted. Locally protected plant material may be used only if it comes from your property and is listed as protected on the entry card.
- Locally invasive plant material may not be used. Please consult The GCP website for a list of invasive plants.
- Exhibitors are responsible for accurate identification of plant material. Entry cards must be filled out in black, waterproof ink with the botanical name, variety and common name.
- Exhibitors entering as a team will split any points earned.
- Par Class: Entries in a placement class are judged individually against perfection rather than against each other.
- Challenge Class: All entrants are given identical material; all or any part of these materials may be used as stated in the schedule. Arrangements are constructed at the show in the time allowed.
- Component Challenge Class: Entrants are given components in advance of the competition. According to the class description, some, but not necessarily all, components must be incorporated in plain sight in the arrangement, and no other components may be used. Plant material is provided by the exhibitor.
- Pedestals are 42" high with a 14" square top. The top may be covered, draped and/or extended by the exhibitor.
- Niches may be lined; plant material may touch the walls of the niche if the design so dictates, but may not protrude beyond the front. A light bar will be provided to accept a white or colored bulb of 75W or less.

MEDIUM NICHES:	24" high x 20" wide x 16" deep
SMALL NICHES:	12" high x 10" wide x 7" deep
PEDESTALS:	42" high, 14" square top

HORTICULTURE GUIDELINES:

All entries must have been in the exhibitor's possession for at least three months (except as noted in the schedule).

- Exhibitors are encouraged to research their entries, prepare their cards and groom their entries at home. **The goal is to arrive at the show ready for passing.** If you need help with your entry, please arrive during the first 30 minutes, and the Passing Committee will help you to identify plant material. Please note for the Daffodil Show in April that the Daffodil Identifier will help identify only one daffodil per member.
- Entry cards must be filled out in black, waterproof ink with the botanical name, variety, and common name. Variety names should be in single quotes.
- All cut flowers are to be shown in water in clean, green Perrier bottles with the gold cap remnants removed, except as noted in the schedule. If a clear glass container is specified, it means clear, un-colored, un-etched glass.
- Any cut flower specimen should be shown with sufficient attached foliage to permit evaluation by the judges. This varies with each variety/specimen. Consult the Horticulture chairs with questions.
- Groom your exhibits thoroughly. Remove dead or damaged leaves and pests.
- Wedging material must be cork or biodegradable plastic wrap. Boxwood and moss are no longer acceptable.
- Length of a branch is 24" measured from the lip of the bottle to the tip of the specimen.
- **A key card** containing a diagram with identifying names that is attached to the entry card is required when multiple species or cultivars are exhibited in the same container. A key card must be a 4" x 6" white, unlined card completed in

black, waterproof ink or typed. Include entry and class numbers on key card. A 4" x 6" photograph with identifying numbers may be used.

- All entries propagated by the exhibitor must be so identified with the method and relevant date(s) of propagation on the entry card. **A propagation card** must also be submitted with the entry.
- If you are assigned to work a show and have entries for that show you must arrive 30 minutes early to submit your entries.
- An exhibitor may submit multiple entries per class, provided each is a different species or cultivar.
- The passing committee must pass each entry before an exhibitor may leave the area. The passing committee reserves the right to refuse any entry that does not conform to the rules of the schedule.
- Once your entry is passed, you may not touch it again until after the judging.
- The committee will subdivide classes as needed.
- Container-grown plants must be exhibited in containers that are clean, unobtrusive and compatible with the exhibit. Terracotta clay pots are preferred. Saucers are not permitted. Green or terracotta colored plastic pots are acceptable, unless otherwise stated in the schedule.
- Top dressing, if used, should be of natural material. Peat moss is not permitted.
- Par Class: A horticulture specimen of merit that does not qualify for entry elsewhere in the schedule, to be judged against perfection rather than against other specimens. Cut specimens are discouraged. Entries are assumed to be mature, top quality specimens of their type. Plants must be in the exhibitor's possession for at least six months.
- Native plants: Consult the NJ Native Plant Society at <http://www.npsnj.org> for natives or native cultivars.
- Locally invasive plant material, diseased plant material, artificial plant material, live animals (including fish), taxidermy, natural birds' nests, feathers of any kind and protected sea life, including coral, are not permitted.

PHOTOGRAPHY GUIDELINES:

- Novices are encouraged to enter and will be considered for the novice award. A novice is defined as an individual exhibitor who has not won a blue ribbon in a Club Photography Show. To enter as a novice, check the novice box on the entry card.
- An exhibitor may make only one entry in a class or in each section of a class but may enter a total of three entries per show.
- Photographs that have been entered in a Garden Club of America Flower Show or a Major Flower Show may not be entered again, even with slight alteration and reprinting.
- Photographs and post processing must be the work of the exhibitor. Printing and mounting may be done professionally, but any manipulation at the time of exposure, in the darkroom, by computer or in the printing process including cropping, straightening, enhancement for color or clarity, removing a part of the image, combining images or distorting the original subject must be done by the exhibitor.
- A different scale of points will be used for judging Creative Technique in a class designated as a Creative Techniques class. Creative Technique involves a higher level of manipulation of a photograph, although manipulation by the exhibitor is permitted in any class.
- All photography entries are limited to the subjects outlined in the purpose of The Garden Club of America, such as horticulture, floral design, gardens/ landscape, conservation, the environment and the natural world, historic preservation and civic improvement, unless a non-complying class is in the schedule.
- If plant material is in the image, the botanical and common name(s) are required on the entry card and on the back of the photograph unless identification is not possible.
- Photographs must be flush mounted on black foam core with a total perimeter dimension no larger than 60" and no smaller than 38". Matting, frames and glass are not permitted.
- Each entry must be labeled on the lower back right corner of the foam core with the exhibitor's name, orientation of the photograph, class and section, title of the photograph, as well as botanical and common names of plant material in the photograph if possible. The exhibitor's name must not be visible on the front of the photograph.
- All photographs will be passed by the Photography Co-Chairs, or those asked to replace them, to verify that all class specifications have been met.
