

EVERLASTING GRACE - ROMANIA

"Preaching the Gospel, protecting the fatherless"

August 2022

www.ahnromania.com

Keith & Brenda Price

As the war in Ukraine continues, our refugees are looking for long-term solutions. Unfortunately, Romania is not a great country to relocate to and find a good-paying job with affordable living expenses. For these reasons, some of our refugees are moving on. Volidamir, with his wife Olena, left to relocate to Ireland, and Olga is heading to the Czech Republic. Please pray for these dear people as they set up new roots in other countries.

We have provided 12 Ukrainian families (35 people) housing, utilities, food, clothing, medical, internet, transportation, etc. Some have stayed short-term, and others are still with us since the war began. We continue to desire to be a blessing and encouragement to them and share God's love of salvation in Christ.

One of the many stories of your partnership making a difference. Zulfia and her nine-year-old daughter's journey to find refuge from the war ended in a car accident only 3 miles from "Tina's House." Fortunately, no one was hurt, but the car was undrivable. They were left stranded in a foreign country and did not speak the language. After the accident, the Romanian Police called us to ask if we could help with the translation of the accident report and provide them accommodations for a few days. In God's perfect timing, another family had arrived the day before. Their son Alex spoke English, Russian, and Romanian and translated for Zulfia and the police.

Zulfia and daughter Mariia stayed with us for 6 weeks while the car was being repaired. They relaxed, regrouped, and visited with the other Ukrainian families. Meanwhile, they came to church, tried singing the songs, and followed along with the sermon outlined in Russian. They also gladly received a Russian Bible, children's bible story book, and Gospel tracts. Please pray the Word of God will take root in their hearts and bear the fruit of salvation.

Home heating costs have increased by 90% in the last 90 days. In June before the price increase, with your generosity, we purchased all the wood pellets to heat Tina's House, church, and mission apartment for this winter. Literally saving us thousands of dollars. Because of the energy crisis and the war, wood pellet imports into Romania from Ukraine and Russia have stopped, causing a supply shortage and rising prices. I am so relieved to have this purchase made, and our refugee families and staff will be kept safe, warm, and comfortable this winter.

We are humbled and blessed by your partnership of love, prayers, and financial support. Thank You!

In Christ Service!
