Sketch of the presumed visitor

The little town of Komsomolskoye

Victor Alexandrovich Zdorov (involved in other encounters) was at his office in this village east of the Simferopol Airport, when four strange humanoid creatures barged in. He described them as “reptoid”. They were scaly and lizard like with four fingers on each hand. They surrounded Zdorov, who was sitting at his desk and blinking in disbelief. One entity pointed a scaly,

clawed finger at him and hissed, “You know too much about UFOs.” The strange visitation came at the end of a series of UFO sightings by Zdorov the previous week.
