Charles Street, the site of the supposed incident

Mr. D. J. Harris, an area insurance agent, was walking down Charles Street in Milford Haven at about 11.00 am when suddenly he heard a sort of whispering sound, and a metallic circular gray object appeared above the buildings. He describes it as enormous, about 150 feet in diameter. Given that there are usually so many people around the area, we are really forced to the conclusion that no-one saw this UFO except the witness and that, in fact, it was visible only to him.

Reliability evaluation:

- false/hoax -

**no investigation available; no reports from other residents;
total invention; no credibility (as clearly stated by Mr.
Holiday in the description of the sighting for FSR)**
