Eugenio Douglas, while driving a truck through a violent rainstorm, had to stop when he encountered a large, blinding object 3.5 meters high. From the craft three giants emerged; they were 3 meters tall, wearing luminous clothes and strange helmets. Douglas fired at them, as soon as a red beam burned him. He ran away and found shelter in Monte Maiz. After he was hit by the beam, he started to suffer burns, similar to kinda ultraviolet exposure. Footprints of large dimension were found at the site.

## **1968: Cofico Suburb in Salta, Argentina**

July 2, evening

*The road near the Sporting Club, area of the incident*

On July 2, 1968, in Cofico, province of Salta, round 08:15 pm, not far from the local Sporting Club, several people saw a strange phenomenon. Among them, Corina Robles, who stated that while going outside in her garden, she noticed a large saucer in the sky which irradiated an intense light downwards. She entered her house to inform her mother and, while going outside again, at the same place, she saw a figure similar to a robot 3 meters tall.

"It was like suspended in mid-air - she claimed - and it then left while moving slowly, like flying, until being lost behind the hills."

The being was also observed by Francisco Emilio Sola, aged 14, in the same area. On February 20 of the same year, he saw a UFO flying in the surroundings of the local hill, reporting a 2.50 meters luminous being hovering in the air, which disappeared beyond the top of the hill. These statements appear to be confirmed by other families of neighbors and by some host of the club. The child Silvia Rosa Olmos has confirmed the facts, adding that she saw something similar at 5 pm over another hill, with two workers of her house. That night, before 8 pm, three policemen stated to have seen a UFO evolving above the Portezuelo District.
