Frame of the UFO and pictures of the marks

A close-range, clear video of a saucer shaped craft has been taken in Sarajevo. The UFO was captured during videotaping of some kind of news report. You can see witnesses scrambling

to see the UFO and pointing at the object. Possible landing marks from the UFO were found in another location of the city. The 'landing marks' were cordoned off by police, in front of the People Theater in Sarajevo. The 'landing marks' are in a different location and far from where the video was taken.

**Reliability evaluation:
hoax / false
commercial spot for The International Theater
Festival in Sarajevo**
