“I was traveling in the jungle by car in the Democratic Republic of the Congo alone when I was awoken by my radio, which had ceased to work and was malfunctioning, emitting static. I heard a loud hum and looked up. Just above the canopy of the trees was a round saucer hovering in the air. There was a strange purple haze around the UFO. I grabbed my phone and

took a picture and video of it (which I will send by email).  
Then, all of the sudden it disappeared with a flash.”  
Duration of the incident, according to the witness: 2 minutes.

**Reliability evaluation:**

**- low -**

**possible drone; one witness only; bad video;  
prank; insufficient information**
