

## **2007: Dubai City, Dubai, Arab Emirates**

January 1, between 7:15 and 7:30 pm  
Source: e-mail of the witness to a web-site

*Al Nakhal Road in the suburb of Naif*

“Myself and wife we went out on our usual evening walk. It was a chilly evening. Sky was scattered with white clouds. I have a habit of looking into the skies, often looking at the stars. That evening I saw something multicolored (yellow & green lights) I first mistook for a helicopter or a plane. I then fixed my glance and asked my wife: “Are you able to see the object that I am seeing in the sky.” She said: “Yes” and then both of us looked up. The object was moving at a rapid speed between south and southeast. It was hovering at around probably 10k feet to 15k feet. As we kept on talking it made a dive towards us and suddenly we were shocked to see its belly similar to the bottom of a dinner plate, but the lights were not visible at that point. The total hovering time was about 20 minutes. I then called up my friend who lives in Sharjahand. He also claimed to see the UFO, but of course he was much far than us.”  
The sighting took place on Al Nakhal Road.

**Reliability evaluation:**

**- low -**

**no investigation; the couple walked on a very crowded  
street but no other sighting was reported;  
possible invention**
