# Mission Statement

The mission of Gulf Beach Baptist Preschool is to provide a loving, nurturing, and Christian environment, which will be the basis for preparing each child to develop to his/her fullest potential spiritually, physically, emotionally, and intellectually. We believe that preschool children learn best through age-appropriate structured activities that encourage and strengthen the whole child. These activities are what we consider a child's way to learn through play that, in turn, will foster a desire and life-long love of learning.

## Licensing

Gulf Beach Baptist Preschool is licensed by the State of Florida. Gulf Beach Baptist Preschool exceeds the minimum requirements by the state. For more information on childcare licensing, please visit [www.myflorida.com/childcare](http://www.myflorida.com/childcare)

## Non- Discrimination Policy

Gulf Beach Baptist Preschool admits students of any race, color, national, or ethnic origin to all rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate based on color, race, national or ethnic origin in administration of its educational policies, admissions policies, and other school-administered programs.

Parents, by reading and signing the parent agreement form, place their child under the rules, regulations, discipline, and religious instruction of Gulf Beach Baptist Preschool.

# Life at Preschool

At Gulf Beach Baptist Preschool, the staff sees themselves as partners with parents in the faith education, as well as the general education of the child. Early Childhood Education is very important in the development of your child.

The Preschool program is planned to cater for each child's interest and needs and foster the development of certain abilities, attitudes and skills which will assist the child's educational development.

At Preschool, children learn by participating in a great variety of activities, both within and outside the Preschool grounds. The most natural way for a child of this age to learn is through play, by observation and by doing things themselves. This learning will be flexible, to cater to the interest, needs and abilities of the children.

## **At Preschool Children are encouraged to:**

- ◆ Express themselves and communicate with others
- ◆ Form basic concepts which help them understand their world
- ◆ Develop self-confidence
- ◆ Make friends
- ◆ Share and co-operate with others
- ◆ Develop physical skills and
- ◆ Develop a positive attitude to learning

Many people remain unsure as to just what preschool is all about. Preschool is not "child minding." It is about the development of important skills; those which are needed in everyday living, in relationships with other people, and in being ready for school. We strive to have each child working to his or her full potential, in all areas, and have them feel good about themselves and the prospect of school.

A child's play is his/her work. It is the one way they have of making sense of the world in which the child lives, and of developing the child's skills - emotionally, socially, intellectually, and physically. Due to the unique nature and capabilities of each child, we cannot expect them to have all reached the same level at the same time. What we **can** strive for is to capture the learning interest and curiosity of each child, through the educational experiences we offer, and through providing an environment in which the child feels free to explore and learn without fear of failure.

As we are working towards developing all these skills in your child, we run a program around what is known as the "process-centered" approach; that is, "what is extremely important is the process by which the child discovers and learns." If we can instill good ways of learning things now, it will certainly help them in their efforts at school and all throughout life.

# Preschool Objectives

Our objectives as we teach your child:

- ◆ Provide an environment which is Christ centered and based on the gospel values
- ◆ Provide a PLAY BASED learning environment, that encourages children to participate in concrete activities through active learning experiences and based on their interest and curiosity

## Gulf Beach Baptist Preschool Behavior Policy and Guidelines

We strive to create a classroom environment that fosters positive social behaviors. During the early childhood years, children are learning to be in charge of their own behavior. We believe in consistent, easy to understand limits and in having teachers who respond to inappropriate behavior with insight, sensitivity, and skill. We recognize and praise appropriate and positive behaviors. A teacher's response to inappropriate or negative behaviors may include redirecting the child's activity, reasonably discussing the problem, or using planned ignoring. The child may be directed to an area of the classroom to participate in an activity that is calming. This approach gives the child an opportunity to reflect on his/her actions.

We work to prevent behavior problems by arranging each classroom so that children work in small groups and have a choice of activities. The range of activities will give your child the freedom and ability to experience success and become self-directed. Our teachers are trained to skillfully direct behavior along appropriate channels and act as role models and encourage children's appropriate behaviors. Children are encouraged to verbalize their feelings to learn to positively work through strong emotions. **Under no circumstances is corporal punishment permitted. Discipline will NOT be associated with food, rest, or toileting.**

In the event that a child does not respond to positive guidance, we will implement a progressive behavior plan. We will notify the parents in writing and work closely with them to help the child gain self-control and a positive attitude toward their peers and teachers. If behaviors continue, a conference will be scheduled between the parents and child's teacher. Further negative behaviors will result in a conference with the preschool director and teacher. Should the child's negative behavior continually be a disruption to the classroom, put themselves, their peers, or their teachers at risk for physical harm, or, if the child damages school property, we reserve the right to ask the parent to withdraw the child from school. While we understand the developmental tendencies of children to experiment with inappropriate or hurtful language, withdrawal may also be requested for those children who are verbally abusive.

I have read and understand the above Behavior Policy and Guidelines.

## **Biting**

Biting is a natural developmental stage that many toddlers go through. Biting occurs for many reasons whether it is teething, lack of language, frustration, attention getting, being overly tired or simply trying to get a reaction from someone. The safety of the children is our primary concern.

Biting policy is as follows:

- If your child bites 2 times without breaking the skin on any one day, the parent will be called, and the child will be sent home for the remainder of the day.
- If at any time the skin is broken due to a bite, the parent will be called, and the child will be sent home immediately.
- If biting continues and the child is sent home daily or is adding undue stress on the other children or the classroom, it may become necessary to terminate childcare arrangements.

## **Termination of Enrollment**

In certain circumstances, it may be necessary for the Director to decide to discontinue a child's attendance. Such a decision would be based on whether it is in the best interest of that child. Every effort will be made to correct a problematic situation before a final decision is made. This is done to preserve a harmonious atmosphere in the classroom. Termination of enrollment may be the result of the following:

- ◆ Abuse of other children, staff, or property
- ◆ Disruptive or dangerous behavior
- ◆ The center's inability to meet the child's needs
- ◆ State required documents for each child
