Club 40 pylon racing --- Race #3 Results

Race report And scores thanks to
Chargin - Charlie Cerino

What a Day for Racing, The temperature started cool at 36 degrees, but the skies were clear, the sun was bright, the winds were calm, and the only thing keeping it from being a perfect day was the pilots. Unfortunately, only four turned up to race, and we had to scramble to get lap counters and cut judges. The first three heats were one-on-one, pitting each pilot once against the others. The racing was intense as they were wingtip to wingtip around every corner. The leads changed hands at every turn, and races were won by as little as one plane length. It was exciting to watch.

We ran race day #5 first.

Skip won the round with 15 points giving him 60 points YTD.

Coming in second was Marty with 14 points YTD 52.

Frank finished 3rd @ 13 points YTD 39.

Charlie finished 4th @ 8 points YTD 33.

By noon the temperature was in the 60s, and the competition was as hot. We now had enough members show up to lap count and cut judge so that we could run the heats with all four planes.

Race Day #6 results:

Marty led the field with 12 points even though he DQed in the last race.

Skip, and Frank tied with 11 points, each having a cut on the last race.

and Charlie brought up the field with 5 points.
