

Indoor Scavenger Hunt

This is a lot of fun when you have to stay inside. Place the first card under a lamp and tell your child where to find it to start the **SCAVENGER HUNT** through the house! Put the second card in the place from the clues on the first card, the third card in the place from the clues on the second card, and so on. At the last place, you will put the final, **CONGRATULATIONS** card (see below). You might even put a little prize. It could be a sweet treat, a book to read together, or even another craft/activity to do next. **ENJOY!**

Congratulations!
YOU DID IT!

Blank card for you to
make up your own!

I'm squeaky clean after my bath, so I need to look here so I can get dried off.

If I want a can of soup, some chips or even some cookies, I'll find them here.

There might be some loose coins or even some chips under this place where I might sit.

It might be plastic or it might be made of glass, but I use this to drink my juice or milk.

I'm just hanging around until you need to put me on to go somewhere.

Wet things were taken from one machine to this one so they can be dried and ready to wear.

Whether they are dressy, or worn when I play outside, my feet will be ready to go when I put these on.

It's where I lay my head when it's bedtime or I just need a nap.
