Fredericton Nature Club

frederictonnatureclub@gmail.com

The Fredericton Nature Club was formed in 1960 and promotes awareness, appreciation, and understanding of nature.

Our monthly meetings feature presentations by a wide variety of speakers. Topics include natural history in our province and abroad.

Currently, outings are mainly focused on birdwatching or botany, reflecting the chief interests of the majority. However, we are always looking for passionate individuals to lead outings on other nature themes!
