RE: Village of Iola – Burning Ban

The Village of Iola is temporarily banning outdoor burning on the advice of Fire Chief Jim Aanstad.

The Department of Natural Resources has suspended issuance of burning permits where it has jurisdiction in response to the COVID-19 emergency in Wisconsin. This is to protect the health and lives of our volunteer fire fighters, who with each fire call, are potentially exposed to this new contagious virus.

The Village of Iola regrets any inconvenience this might cause, but the health and safety of all residents and all fire volunteers must come first.

The Village of Iola will approve burning times when it becomes safe to do so.

A handwritten signature in cursive script that reads "Joel Edler".

Joel Edler,
Village President
