Work Completed on Golf Course

Work on Iola's nine-hole golf course at American Legion Park has been practically completed at present. A crew of volunteer workers was employed at the course most of last Thursday and at that time a large number of stones and other material were removed from the fairway.

Tee-off places and greens have been arranged for each of the nine holes. The course starts east of the baseball diamond and is carried from there south and west to the large field west of the Legion pavilion. Par for the course has been established as 36. Already many local golf fans have been out to play the course.
