

VIOUS PRESENTATION

Vious is an international network. Vious is a **way of being** for individuals, who have the desire and motivation, to perpetually progress to their highest potential as other beings had possessed in the past. For humans to reach other levels of their potential, that is being able to use more than 10% of their brain capacity and connect all of their DNA strands, they must evolve their consciousness and become efficient in holistically incorporating other aspects of themselves. To reach another level of human potential, known as **human 3.0**, the network focuses on manifesting your expanded reality, self-mastery, and shifting paradigms to make life flow more inspiring, fulfilling, and harmonious through the untapped power of the **subjective realm** (the expanded realm).

In order to make the shift to another level, there are four fundamental **practices** that can be vital to your way of being. Here are four fundamental practices with some examples that you want in your existence:

1 – **SUBCONSCIOUS LIVING OR KARMIC/DHARMIC LIVING**: Energy clearing; **Shadow work**; keeping your aura field clean; removing energetic blocks; Creating your **protection** (rather it is Spiritual animal, A field. Quotes, Affirmations, Sayings, ETC.); Sphere effect

2 – **CONSCIOUSLY LIVING**: Having awareness; Awaken consciousness; Being open-minded; PEEMology

3 – **EMPOWERMENT LIVING**: **Self-mastery**; Enriching self; Going thru transformation; Enhancement; GEEDology; Consciousness techniques; bending perception

4 – **ENERGETIC LIVING**: **Integrating energetic, spiritual, universal, and other higher laws and principles in your living**; Having true intent; Having integrity; Doing energetic/spiritual work (meditation, prayer, affirmations, mandala, breath work, ETC.); Using universal laws; Healing modalities; TUC (The Universal Code); Using interface with the energy

PART II THE PHILOSOPHY OF VIOUS

The philosophy of vious, also known as The Energy of HuAum, is derived from questions like; why am I on this planet? What am I supposed to be doing? How do I make life more inspiring, fulfilling, and harmonious? Did you find out the

answer? Or are you walking around here like cattle that are in a herd, following anything that is given to you; being oblivious to this matrix, the planet, life, or how anything in the universe works? Well, Vious takes a practical approach to deal with these questions.

The philosophy of Vious is based on two viewpoints. One is the concepts of GEEDology and PEEMology and the second viewpoint is called The Universal Code (TUC).

PEEMology: PEEMology or SPEEMology is the concept that everything and everyone has a **physical, emotional, energetical, or mental** aspect (PEEM) or subjective, physical, emotional, and mental) aspect (SPEEM), which works in a holistic way. Being aware of all the aspects and dealing with them altogether as a whole and not separately will create a stronger foundation for someone to expand from.

GEEDology: Because energy is in constant movement and everything and everyone is energy, then people must be constantly moving, that is; **growing, evolving, expanding, and developing** (GEED)....that is what keeps your life force going in this reality – GEEDology. Most people realize that they must grow and put a lot of effort into reaching their goals and objectives. However, they do not always get the maximum benefit, because they focus on one aspect of self, versus, the whole or complete self. The aspects that must be developed are the subjective, the physical, the emotional, and the mental (SPEEM).

In life, one should have a method and a system to live in society and not just be running around in this reality being oblivious with no direction in their existence. The Universal Codes (TUC) is a concept that creates a way to deal with the physical matrix of this reality. TUC recognizes that everything and everyone is moving (that is vibrating) and everything and everyone is energy. TUC is a concept that creates a way to deal with this reality and understand the workings of this physical matrix. TUC concept is based on these two codes:

The **first code** of TUC is **The Code of Conscious**, conscious is **first cause**.

How your conscious is aligned is how energy will flow through. Energy is neutral; it is how a vessel is configured that the energy flows through that will determine the outcome of the energy. This is how you take the responsibility for creating your reality – by configuring your consciousness and mindset.

The **second code**, **The Code of Vibration**, is the **first law** which is that everything is in motion, everything vibrates; nothing is at rest. The Universe is moving – planets, moons, and stars are all rotating and revolving. The Universe is expanding and if anything stopped in the Universe, it would create an unbalance. When you stop your motion (constantly developing and evolving),

you also create an unbalance (unwanted energy). If you stop maintaining your body, it starts to create an unbalanced effect, the same with your mental, emotional, and subjective self.

PART III

VIOUS MANIFESTING FLOW

The vious manifesting flow shows how thoughts flow to a manifest reality. It shows how one is always manifesting their reality, even when they are not aware of it. That is why when things happen to people they wonder why, not aware of how they manifested it. Sometimes, we get things in life that we manifested a long time ago, maybe when we were much younger. Do not expect your action to correspond with your karmic outcome. For example, one could scam others out of money but their karma could manifest later in life as bad health. In the diagram below, your conscious is on one side, on the other side is your inner core (a source), and your vibration is in the middle. What is in your conscious is constantly flowing to your inner core. Your inner core, acting as a source, is creating your reality by reflecting back into your reality what is in your conscious mind. The more quality of your conscious mind, the better outcome, and quality of your life will be. If your mind is full of chaos, the core will loop chaos back to you soon or later. The cycle for this manifestation to loop is determined by your vibration rate. The higher your vibration, the faster those things can manifest for you. Understanding how your conscious energy flows, allows you to take your power back from others and empower you to be self-sufficient in manifesting your reality. Being that your conscious is part of the collective consciousness makes it difficult to manifest things that will affect the collective or create changes in society.

PART IV THE VIOUS SYSTEM

The vious system known as The HuAum System is an innovative system of empowering and transforming individuals, businesses, and organizations in accomplishing their goals and objectives so that they can create their paradigm. The HuAum system's objective is to help as many people and organizations as possible to reach their goals so that they can create the paradigm that they choose. When everyone and all aspect of society improves, then society becomes better overall with more harmony.

The HuAum System is designed for one to develop and evolve why they obtain their goals and objectives. It is a system for monitoring your life process and where you want to go in life – that is the life that you want and the things that you want to change in your life to get there. The process is an ongoing journey. To develop and make changes, you must have goals, objectives, or dreams that you want to reach. These goals and objectives can be anything from losing a few pounds to starting a business or creating a whole new reality for yourself. The process can be for individuals or modified for businesses and organizations. The hu-aum system helps you to transform your reality. Some of the possible improvements and accomplishments are:

- Health (weight loss, anti-aging...)
- Wealth (career, financial flow, more abundant...)
- Addictions & habits (sweets, alcohol, television, video games....),
- Quality of life (relationships, goals, objectives, self-development....),
- Other benefits (starting a new business, evolving a business, organization growth, coming up with ideas, and so on)

To obtain the best outcome, one should work on their overall self and not just one aspect to give oneself a better chance of achieving their goals. Just improving one area in your life doesn't always improve the whole self; most of the time it is a distraction from a deeper issue. This is why the hu-aum system has a holistic approach with concepts such as GEEDology and SPEEMology. This might require more effort but it will create a more effective foundation to build on.

You control your reality; your reality will not change until you start changing it. Start the HuAum process to create your paradigm.

PART V

THE OMNI-SOURCE

The All aka The Omni-Source, The Primordial-Source, or Pure Energy-Source. The Primordial-Source is where everything is connected back to: It is the origin which everything evolved from. Here is a breakdown of this expanded process starting with The Pure Energy-Source (PES) which is pure energy vibrating at a level beyond what can be comprehended:

1. Pure energy vibrating at a high level:

2. This pure Source-energy, vibrating at a high level, is like a cell and divides into two parts, Conscious and Energy (similar to a big bang):

3. With consciousness, in order to know itself, It furthers its mutation and starts a creation process. Source further developed into many Dimensions.

4. Creating multiple realities

RRRRRRRRRR
RRRRRRRRRR
RRRRRRRRRR
RRRRRRRRRR

5. Manifesting infinite solar systems, universes, entities, and beings;

000000000000
000000000000
0000000000X0
000000000000

6. The X is the mark that represents where we exist in this creation process. As the processes of the All continue, It can further know itself through us carrying out The Omni-Source infinite mission by us evolving and expanding on the way to creating our paradigms, societies, communities, realities, and so far.

In life when a critical point is reached in a cycle, reality cannot advance or progress. At this point, life force stagnates, causing reality to soon decay away. To continue existence, realities will have to keep evolving similar to the cycle for the division of cells known as cytokinesis (the process where one cell splits off from its sister cell). Now that people in society are feeling that life is in a loop and searching for more fulfilling experiences, can be a sign that it is time for transformation, empowerment, and a more meaningful reality.

Some people wonder why their progressive ideas and views are not accepted in society. Why do the system and the establishment seem to work against them? Maybe, the old structures were not designed to handle advanced and evolving concepts and principles. New structures and organizations have to be formed based on higher concepts in order to facilitate the paradigms of the future. As

the saying goes, don't put new wine in old skin. It is up to you to create and manifest the new reality that you want. No one is going to do it for you or can do it for you, especially the old system that is based on greed, fear, self-centered and other unbalanced behaviors that cannot understand where you are going, feel what it is that you are feeling or see the world that you are visualizing. Vious is helping in trailblazing the way of The New.

Vious is more than an association, it is more of a way of existing, a way of being, a way of vibrating, a continuum – it's a Reality. The Vious network allows you to be who you are and empowers you with the potential of who you can be and want to be.

The Vious continuum is a matrix grid that is powered by Viun the inner source that works in union with the Vious concept and system. Once one is ready to evolve and think that they are prepared for the Vious way of being, one may voluntarily shift to the Vious matrix and take advantage of all that it has to offer.
