California District 4 Tournament of Champions
Continuous Batting Order Mandatory Play Tracking

Mandatory Play Requirements:

1. Each player must complete one time at bat. This is met by entering the batter's box with no count, and completing the at bat by being retired; or if becomes a runner, by being put out on the bases, scores, or the inning ends. During the first plate appearance, the player may not be removed until they complete the at bat.
2. Each player must play 6 defensive outs. A defensive out consists of being on the field on defense when 6 outs are made, or the inning ends after 5 runs are scored (AAA Baseball and Softball and AA Baseball divisions only).

Mandatory Play Tracking: Each inning the scorekeeper will note which players are not on the field on defense by marking in the table below. This will serve as the basis for determining who has played on defense that inning.

Game Location (Field): _____ Date/Time: _____
