More Math Review

1. What is the *value* of each of these expressions:
(Your answer should be a **NUMBER**.)

12 hundreds + 8 tens = _____

18 tens + 18 ones = _____

5 hundreds + 15 tens = _____

8 tens + 21 tens = _____

2 hundreds - 2 tens = _____

29 tens - 8 tens = _____

10 hundreds + 10 tens = _____

11 tens - 7 tens = _____

*In working the following, remember that addition and subtraction are inverse operations.
Either one will 'undo' the other.*

Example: If $3 + 4 = 7$, then $7 - 4 = 3$ and $7 - 3 = 4$.

2. You subtract 57 from a *certain number* and get 98.

What will you get if you subtract 98 from that same number? _____

3. The sum of two numbers is 103. If one of the numbers is 39, what is the other number?

(The sum of two numbers is what you get when you add them together.)

4. The difference between two numbers is 9. If the smaller of the two numbers is 67, what is the larger number?

(The difference between two numbers is what you get when you subtract the smaller from the larger.)
