Division Math Review

**4.** If Ruby makes **2,326** lunches a week for Franklin students, how many lunches does she make in **3** weeks?

5. The sidewalk in front of the school is 4 feet wide and has an area of 2004 square feet. How long is it? (Remember to include the correct unit with your answer.)

1. Your brother and sister are arguing over who spends more time on homework. Over the past **week**, your brother has spent <u>50 minutes</u> <u>every single day doing homework</u>—even on the weekends. Your sister only did homework on <u>6 days</u>, but she spent an <u>entire hour each day</u>.

Who spent more time (minutes) on homework during the past week?
