

# Wired-Up Prepaid Meter Services

Prepaid Meter Installment Payment Plan.

## 3 Months Payment Plan

Some relationships in life work better when there is a third party to separate emotions. This can't be truer for the landlord and tenant relationship. Wired-Up offers a custom, proactive, and dynamic approach to property management. Saving you time and maximizing your profits. We offer an extensive list of services, all needed to create a turnkey solution for your property investments. Below is a list of payment plans we have for you should you want to buy prepaid meters from us. Note that the selling price for each unit is R649.99 but if taken on our 3 months' plan, R50.01 will be added. The new price which will be paid at the end of the plan is R700.00 for each unit.

20	Hexing	R12 999.80 + (R1 000.20)	R8 400.00	R2 800.00	R1 400.00	R1 400.00	R14 000.00

All our prepaid meters come with lifetime maintenance plan and the G.A.S.E Protector activated already. Our maintenance plan provides our clients with best protection from the unforeseen circumstances that can affect their budget and tarnish their reputation. The (G.A.S.E. Protector) Guardian All-Seeing-Eye Monitoring System is a 100% unique and high valued protective system that has been set in place to ensure that all prepaid meters are fully functional at all times. It ensures that no meter is bridged or tampered or stays faulty and not attended to within the first 12 Hours of receiving the notification from the system itself. Our holistic risk solutions are perfectly tailored to suit our client's needs and are 100% effective and eliminates any possibilities of utility systems being tampered.

# Wired-Up Prepaid Meter Services

Prepaid Meter Installment Payment Plan.

## 3 Months Payment Plan

We currently in a process of building a software that communicate directly to the landlord and Us; “Wired-Up” should the utility system be tampered-with or faulty. The same software will send notification directly to tenant’s registered email address and cellphone number should the meter need attention or if the balance is running low.

### The functionalities of the software are listed below:

1. It communicates directly to the landlord if the meter is bridged or tampered.
2. It communicates directly to the tenant, should the meter need attention or needs to be recharged.
3. It shows records of all activities and transactions done to/for/by each meter. The records will have dates, times, amounts, kWl, etc.
4. It automatically sends tips to landlords and tenants on how to use and conserve electricity.
5. The software is the last piece of Wired-Up’s G.A.S.E Protective System. The information sent to both landlord and the tenant will be sent by this software and we’ll have records of all communications thereof. Some of the info which will be distributed by the software is: activities and transactions done to/for/by/into/regarding the utility system, reports of registered meters so we can be able to track the status of every meter at all times and the same reports can be downloaded anytime from our website. In so doing, we making owning/having a utility system convenient for direct and indirect users and also keep all parties updated on what’s going on with their utility systems.

### Benefits of owning our meters and protecting them using our maintenance plan

- Our Monitoring System ensures’ no meter is bridged and we send monthly meter readings via emails and post to ensure that you always mindful of your tenants doing.
- Monthly visitations from our inspectors and installers to check the tenants’ installation, their prepaid meters and your entire house wiring.
- Annual Replacement Meters. We replace all old meters with new ones annually.
- Faulty meters taken in for Testing/Repairs and Replaced if need be.
- Monthly monitoring usage readings from Eskom/City Power and Wired Up.
  - (No call-out-access-service-hidden fees applicable).
- Electricians/Technician available should you need someone to look at your faulty electric appliances. This service is also Free however, the owner of the appliance is responsible for spare parts.
