

DIABLO A's MODEL OF THE MONTH OCTOBER 2020

ERIC TOTMAN'S 1928 TUDOR

This is Dixie! I bought Dixie back in September of 2019 and had no idea about what I was getting myself into. I named this Model A "Dixie" for a few different reasons:

- I play Trumpet and LOVE to play Dixieland Music.
- Dixieland music was being invented during the 1920's when my Dixie was made.
- As a Civil War re-enactment musician, in the [Fort Point Garrison Brass Band](#), Dixie is the most requested tune for us to play.

After moving to Pleasant Hill in 2020, I contacted Diablo A's to find someone to help me get Dixie running. Both Herb Neumann and Doug Freeman have been extremely generous by spending many hours helping me to get Dixie up and running.

I purchased Dixie for \$1,200 and spent at least another \$4,000 upgrading her with, front bumpers, rear bumpers, luggage rack, rear spare wheel/tire, period 1928 license plates, seat belts, . . . to name a few.

Since I recently acquired another Ford Tudor (1930), I am now looking to sell Dixie for a bargain price of **only \$9,000 for a quick sale!!** Please contact me if you are interested in buying Dixie at Eric@HornCollector.com.

Cheers,
Eric Totman
