

DIABLO A's MODEL OF THE MONTH MAY 2021

MIKE & SUE PHELAN 1928 Roadster Pick Up

In 1928, adults must have been smaller than today's version. This 'truck' has only enough room for two medium size adults - kids fine, but no 6 footers! And the bed would barely hold today's refrigerator. No window curtains. Not a winter driver!

Acquired some 25 years ago from a dentist friend in San Diego. Had not run in years - tires flat - got it fired up and loaded in my trailer (which was used to transport my Model T, so it was a tight fit). Once home, the fun began! The body and top were in good shape. The tires had to be replaced and later the rims were powder coated. New radiator required. Engine and running gear all upgraded as sales description relates.
