keyword: "Earth Transformation"

IMAGINE

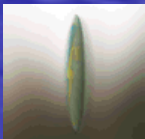

Imagine a world in which each home has its own power generator that obtains its energy in such a way that no fuel has to be added. Imagine every vehicle being able to run without ever stopping for fuel. Imagine each appliance having its own power source that never has to be recharged. That is the world of the future. Join with us now as we track our progress toward such a world.

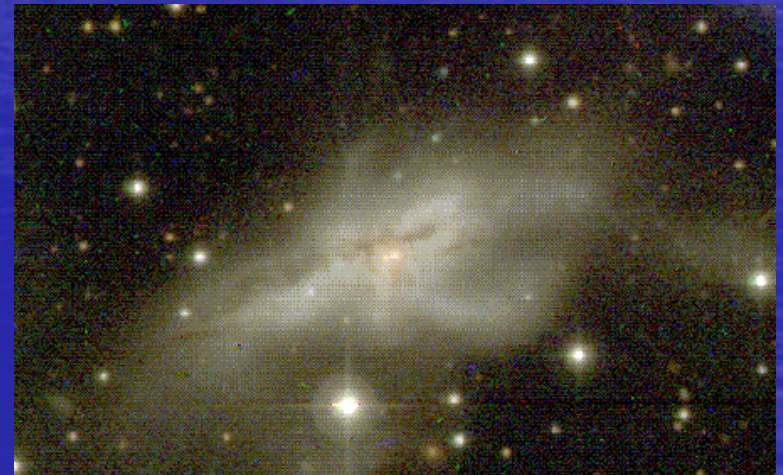

Outline

- “Free Energy”
- Basis for Determination
- Top 10
- Runners Up
- Open Sourcing

Things could be worse

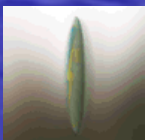

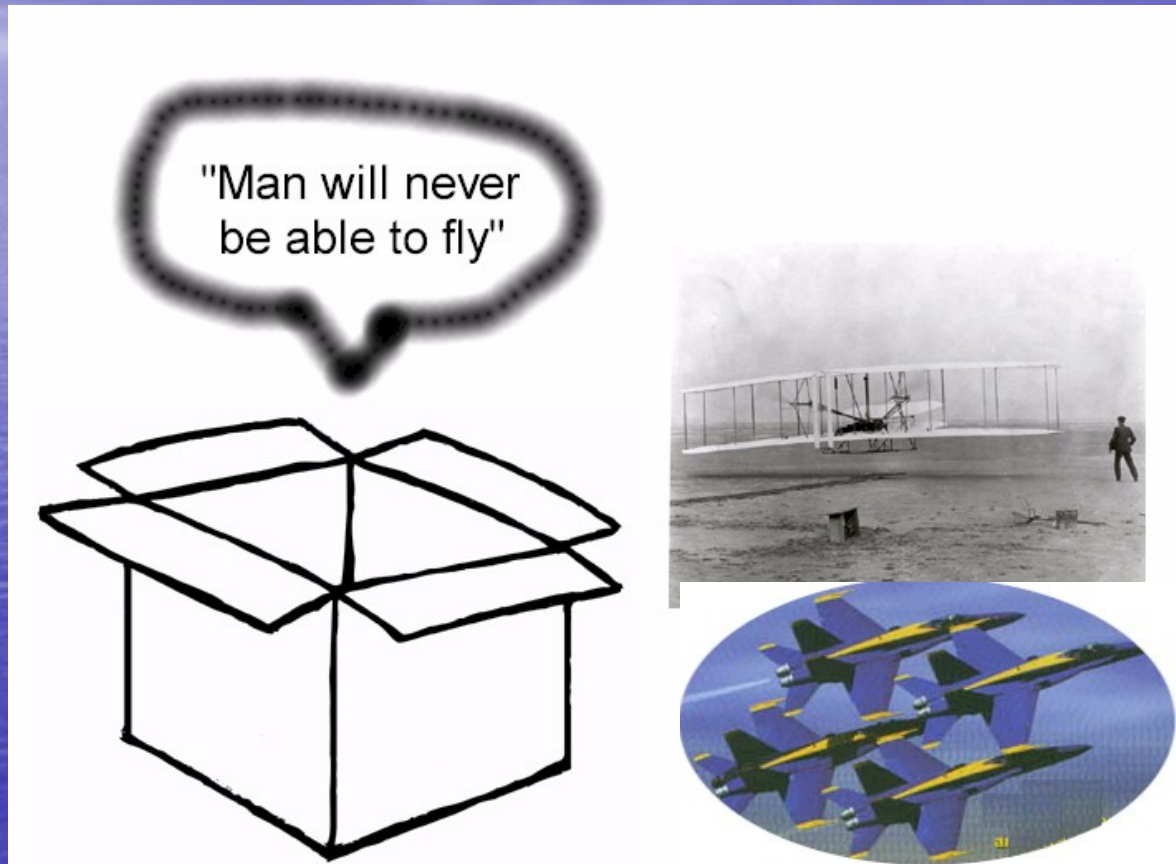

Ideal Energy Device

- **Affordable**
- Renewable, Non-depleting
- Environmentally Friendly
- **Continuous Output**
- **Load-following**
- Robust, Low Maintenance
- Scalable
- **Portable**
- Materials are Sustainable
- Practical
- *Strong Team*

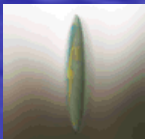

"Impossible"

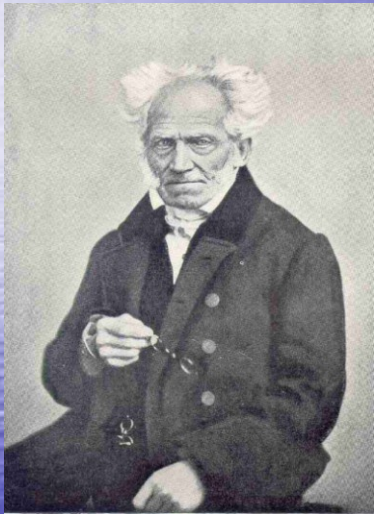

It's Not Perpetual Motion

When we say “free energy”, we’re referring to harvesting sources that are free for the taking, and renewable.

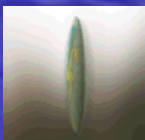

Just because it appears to be coming from “nowhere” doesn’t mean there isn’t some unseen mechanism in play.

Evolution of Ideas

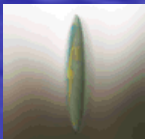

**All truth passes through three stages:
First, it is ridiculed;
Second, it is violently opposed; and
Third, it is accepted as self-evident.--
*Arthur Schopenhauer (1788-1860)***

Crackpot?

**"When you're one step ahead
of the crowd you're a genius.
When you're two steps ahead,
you're a crackpot."**

-- Rabbi Shlomo Riskin, (Feb. 1998)

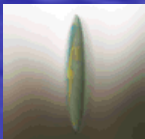

“Crackpots” & Eccentrics

Sterling’s Axiom:

Generally speaking, one’s eccentricity is directly proportional to the distance one is outside the box.

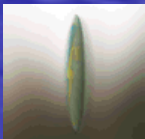

- **Mavericks**, being outcasts from the mainstream, don’t develop the same social skills as their peers.
- **Interpersonal conflicts** are the GREATEST IMPEDIMENT to the progress of exotic technologies to the marketplace.
- This eccentricity syndrome contributes to the stigma of “crackpot” by others.
- This phenomenon holds true in any field of endeavor: alt energy, alt health, UFOlogy, etc.*

*Some might argue that “electricity contributes to eccentricity”.

Ideal Energy Device

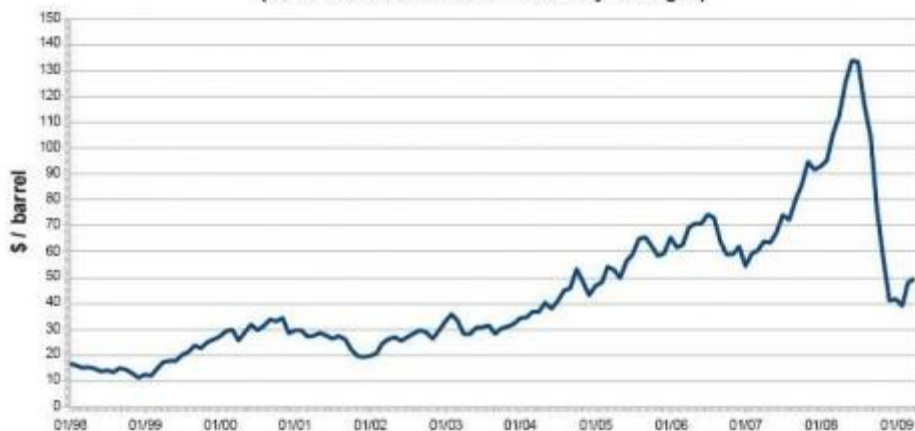

- **Affordable**
- Renewable, Non-depleting
- Environmentally Friendly
- **Continuous Output**
- **Load-following**
- Robust, Low Maintenance
- Scalable
- **Portable**
- Materials are Sustainable
- Practical
- *Strong Team*

Cost of Energy: Oil vs. Renewable

Crude Oil Prices 1998 – 2009

(West Texas Intermediate – monthly averages)

Top 10 Exotic Free Energy Technologies

Sterling D. Allan, New Energy Congress (.org)

<http://FreeEnergyNews.com>

<http://PESWiki.com>

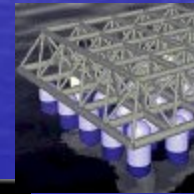

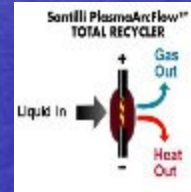

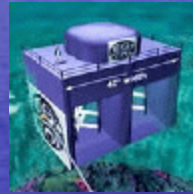

“Free Energy”

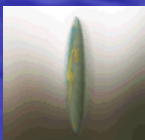

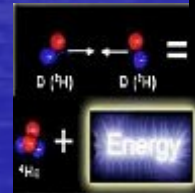

- Conventional

- Solar
- Wind
- Geothermal
- Tide
- Etc.

- Exotic

- Cold Fusion
- Magnet Motors
- Electromagnetic “Over Unity”
- Water Power

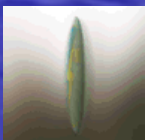

Free Energy Genres that Work

Conventional

- Hydro
- Wind
- Solar
- Geothermal (Turbine & Mass)
- Waste-to-Energy
- Biomass/Biofuels
- Low-impact hydro: Run-of-River
- Thermal Electric
- Tide
- Ocean Wave
- Ocean Thermal
- Environmental Vibrations

Exotic

- Cold Fusion
- Magnet Motors
- Electromagnetic "Over Unity"
- Super Efficient Water Electrolysis
- Brown's Gas
- GEET Reactor
- Vortex
- Cavitation
- Ball Lighting
- Joe Cell / Orgone
- Electrostatic
- Zero Point Energy

Top 10 **Exotic** Technologies -- Determining Factors

Qualifications and Considerations

- Prior credentials as “maverick” in religio-political and UFO arenas since 1996
- Free Energy News and Directory service for nearly 8 years (clearing house)
- New Energy Congress ranking Top 100 Clean Energy Technologies 4 years
- Criteria for establishing ideal energy device
- Building own renewable home and intentional community (personal)
- Some direct and indirect personally beneficial relationships (bias)

Intentional Community

<http://SafeHavenVillages.org>

I'm involved with a group of people who are preparing to build an intentional community based on principles of sustainability, healthy living, natural healing, individual responsibility, cooperation, and renewable energy. In short, it is about alternative, enlightened everything.

http://peswiki.com/index.php/OS:Utah_Safe_Haven_Village_Project

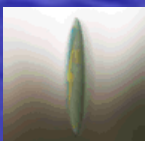

Top 10 Exotic Free Energy Technologies

Sterling D. Allan, New Energy Congress (.org)

<http://FreeEnergyNews.com>

<http://PESWiki.com>

New Energy Congress

<http://peswiki.com/index.php/Congress:Join>

The New Energy Congress is a global association of experts who review the most promising new and emerging energy technologies. We publish [The Global Top 100 Clean Energy Technologies](#) list, a publically available resource that is generated from a continuous professional review process taking into consideration a number of criteria including: environmental impact, sustainability, cost benefits, reliability, scalability, safety, and availability. We also facilitate the emergence of promising new technologies that may have difficulty gaining assistance through more traditional means.

ERR Fluxgenerator by Noah's Ark Research Foundation

http://www.peswiki.com/index.php/Directory:ERR_Fluxgenerator_by_Noah's_Ark_Research_Foundation

Inventor, James B. Schwartz of the Philippines, has come up with a device that allegedly puts out as much as six kilowatts of electricity, tying into the Earth's frequencies, using a solid state arrangement in a panel made from "left-handed material" -- Aluminum and Bismuth interwoven with coils.

He's presently in process of testing and refining the design.

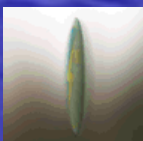

Top 10 Exotic Free Energy Technologies

<http://PESWiki.com>

1

ERR Fluxgenerator

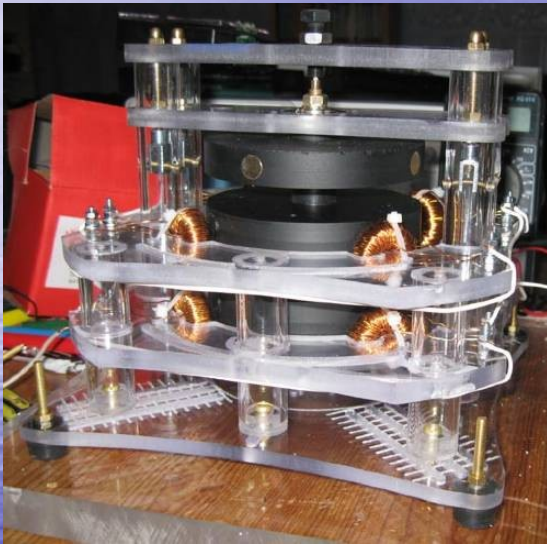

- **Affordable**
- **Renewable, Non-depleting**
- Environmentally Friendly
- **Continuous Output**
- **Load-following**
- **Robust, Low Maintenance**
- **Scalable**
- Portable
- Materials are Sustainable
- Practical
- Strong Team

Steorn's Orbo – Electromagnetic OU

<http://www.peswiki.com/index.php/Directory:Steorn> Free Energy

Steorn claims to have come up with a magnetic and electromagnetic system that puts out more energy than it consumes, drawing energy from the environment somehow.

Live, public demonstration presently underway from Jan. 8 through 31, 2010 in Dublin

<http://Steorn.com>

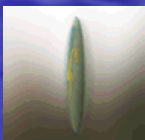

Top 10 Exotic Free Energy Technologies

Sterling D. Allan, New Energy Congress (.org)

<http://FreeEnergyNews.com>

<http://PESWiki.com>

Steorn Milestones

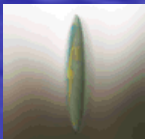

- **2003** – Steorn undertook to develop more efficient micro generators
- **Aug. 18, 2006** – Announces free energy discovery in *Economist*
- **July 4, 2007** – Widely publicized demo of magnet motor prototype fails at the Kinetica Museum in London
- **Feb. 4, 2009** – Solicits teams of engineers and commercial interests to become part of a developer group
- **June 21, 2009** – Jury selected in 2006 issues verdict: “does not result in energy gain”
- **Dec. 15, 2009** – Public demonstration of e-Orbo, electromagnetic overunity, not very convincing
- **Jan. 8, 2010** – Next public demonstration launched

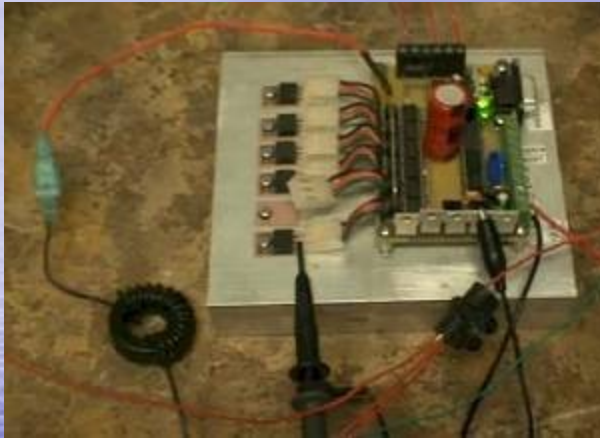

Steorn Orbo

- Affordable
- **Renewable, Non-depleting**
- Environmentally Friendly
- **Continuous Output**
- Load-following
- Robust, Low Maintenance
- **Scalable**
- Portable
- Materials are Sustainable
- Practical
- **Strong Team**

Boyce Hex Controller

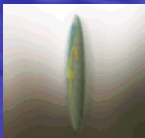

http://www.peswiki.com/index.php/Directory:Bob_Boyce_Hex_Controller

Bob Boyce's circuit runs from the same battery it is recharging, pulling energy from the environment somehow.

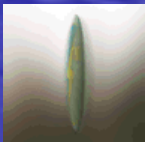

Child's toy recharged 35+ times

Boyce Hex Controller

- **Affordable**
- **Renewable, Non-depleting**
- **Environmentally Friendly**
- **Continuous Output**
- **Load-following**
- **Robust, Low Maintenance**
- **Scalable**
- **Portable**
- **Materials are Sustainable**
- Practical
- Strong Team

Boyce Electrolyzer Plans

[http://peswiki.com/index.php/OS:Bob Boyce Electrolyzer Plans](http://peswiki.com/index.php/OS:Bob_Boyce_Electrolyzer_Plans)

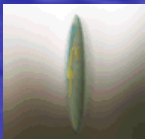

Open Source Project to clearly report, develop, advance the electrolyzer plans of Bob Boyce.

6

Top 100

Massive Yet Tiny Engine

[http://peswiki.com/index.php/Directory:Massive Yet Tiny \(MYT\) Engine](http://peswiki.com/index.php/Directory:Massive_Yet_Tiny_(MYT)_Engine)

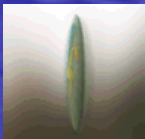

Advantages:

- Low weight
- Can burn multiple fuels
- Can run on compressed air
- Fewer moving parts
- No reciprocating parts.
- High RPM potential
- No cylinder heads, no camshaft, no valves

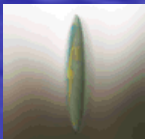

<http://AngelLabsLLC.com>

MYT Engine

- **Affordable**
- **Renewable, Non-depleting**
- **Environmentally Friendly**
- Continuous Output
- Load-following
- Robust, Low Maintenance
- Scalable
- **Portable**
- Materials are Sustainable
- Practical
- *Strong Team*

Magnacoaster Vorktex

[http://peswiki.com/index.php/Directory:Magna Coaster Motor Company](http://peswiki.com/index.php/Directory:Magna_Coaster_Motor_Company)

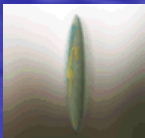

<http://Vorktex.ca>

Solid state system involves some very high-powered permanent magnets and some specially-wound coils, along with some proprietary circuitry.

The company's website lists a number of products of varying power outputs (including 4.8 kW; 9 kW; 12 kW) for sale. No units have yet been delivered to customers, but the company says that the final modifications are being made to ship the first batch of products.

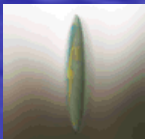

Richard Willis

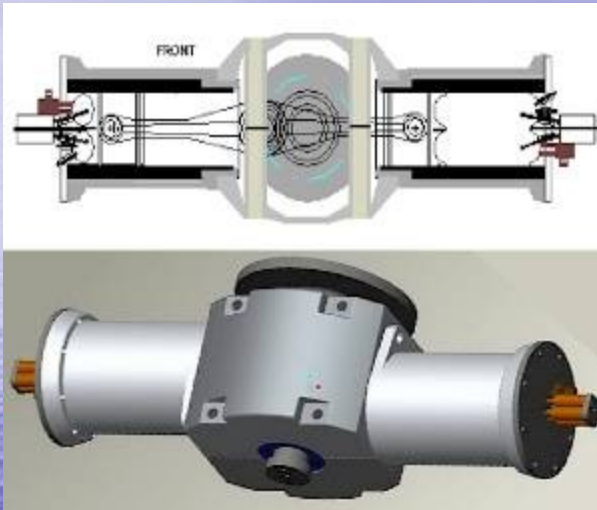

Magnacoaster Vorktex

- **Affordable**
- **Renewable, Non-depleting**
- **Environmentally Friendly**
- **Continuous Output**
- Load-following
- Robust, Low Maintenance
- Scalable
- **Portable**
- Materials are Sustainable
- Practical
- *Strong Team*

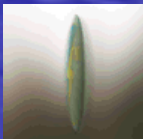

PlasmERG Noble Gas Engine

http://peswiki.com/index.php/Directory:Plasma_Energy_Controls'_Plasma_Expansion_Motor

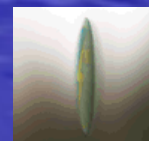

The noble (inert) gas engine by PlasmERG, Inc, with just five moving parts, would allegedly cost 1/3 what a regular engine of comparable output would cost. Meanwhile, its fuel cost would be negligible. It's kind of like a Stirling engine -- a sealed system -- except that the expanding component is internal, and comes by way of a plasma form of inert, noble gasses, which are not consumed in the process, and which are environmentally benign anyway.

<http://PlasmERG.com>

PlasmERG Engine

- **Affordable**
- **Renewable, Non-depleting**
- **Environmentally Friendly**
- **Continuous Output**
- Load-following
- Robust, Low Maintenance
- Scalable
- **Portable**
- Materials are Sustainable
- Practical
- Strong Team

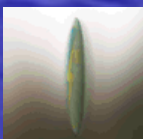

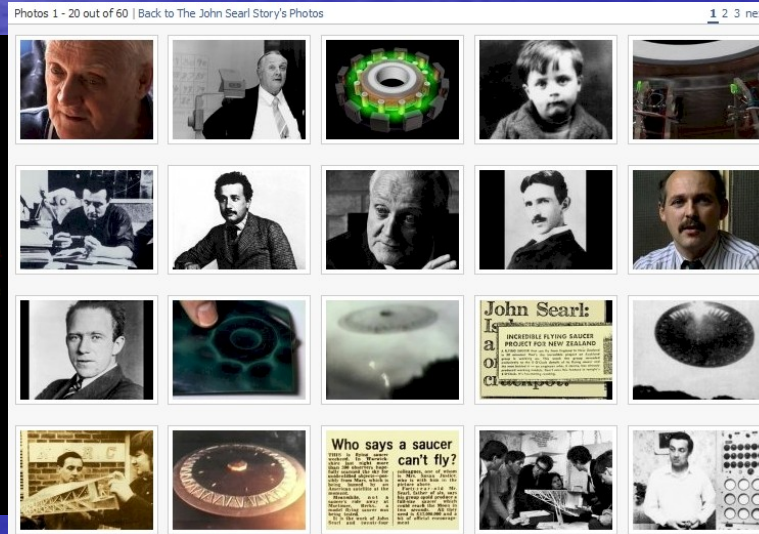

Searl Effect Generator (SEG)

[http://www.peswiki.com/index.php/Directory:Searl_Effect_Generator \(SEG\)](http://www.peswiki.com/index.php/Directory:Searl_Effect_Generator_(SEG))

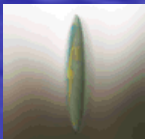

Capable of cheaply and safely producing electricity without fuel, pollution, friction, or noise. Anti-gravity effects also involved.

<http://JohnSearlStory.com>

Searl Effect Generator

- **Affordable**
- **Renewable, Non-depleting**
- **Environmentally Friendly**

JET Thermal Products

http://peswiki.com/index.php/Directory:JET_Thermal_Products

JET Energy is Developing Cold Fusion Technology -

Having brought cold fusion through many generations of advancement, Mitchell Swartz' company is in process of developing the technology to the point that it could be commercialized. They made history in 2003 by running a large public demonstration for five consecutive days at MIT.

Cold Fusion

http://peswiki.com/energy/Directory:Cold_Fusion

20 Years to New Head Turn by Scientific Community

Scientists in possible cold fusion breakthrough

- Researchers at a US Navy laboratory have unveiled what they say is "significant" evidence of cold fusion, a potential energy source that ... (*AFP* - Mar 24, 2009)

Cold Fusion at 20: Hope Springs Eternal - For those of you with memories that go back to 1989, the news that cold fusion has not slinked off into the abyss might come as a bit of a surprise. ... (*Newsweek* - Mar 24, 2009)

After 20 years: New life for cold fusion? - By Katherine Harmon in 60-Second Science Blog Is the science community warming to cold fusion? It's been 20 years to the day since Martin Fleischmann and ... (*Scientific American* - Mar 23, 2009)

Cold fusion experimentally confirmed - US Navy researchers claimed to have experimentally confirmed cold fusion in a presentation at the American Chemical Society's annual ... (*EETimes.com* - Mar 23, 2009)

New Cold Fusion Evidence Reignites Hot Debate

- On Monday, scientists at the American Chemical Society (ACS) meeting in Salt Lake City announced a series of experimental results that they ... (*IEEE Spectrum* - Mar 25, 2009)

Cold fusion a possible source of power? - There is compelling new scientific evidence for the existence of low-energy nuclear reactions (LENR) according to one group of scientists. ... (*Nuclear Engineering* - Mar 25, 2009)

New evidence of cold fusion - Researchers from the US Navy's Space and Naval Warfare Systems Center (SPAWAR) have reportedly observed lab-controlled cold fusion. ... (*Examiner.com* - Mar 24, 2009)

Cold fusion makes a comeback - That controversial table-top experiment dubbed cold fusion simply won't die. In fact, it isn't even fading away. ... (*KSL-TV* - Mar 23, 2009)

Green Power, Inc. – Trash to Diesel

[http://www.peswiki.com/index.php/Directory:Green_Power_Inc's_NanoDiesel:Catalytic_Pressureless_Depolymerization_\(Oiling\)](http://www.peswiki.com/index.php/Directory:Green_Power_Inc's_NanoDiesel:Catalytic_Pressureless_Depolymerization_(Oiling))

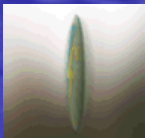

100 ton/day production prototype plant
completed March 2008

<http://CleanEnergyProjects.com>

GPI's process inexpensively converts biomass and household waste into high grade diesel fuel.

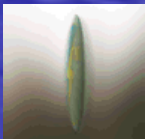

GPI's plant processes municipal and other waste in a low heat and low pressure, proprietary catalytic system, converting the feedstock into high grade fuel, including diesel, kerosene, and fuel oil; as well as electricity and an asphalt component.

The preparation of incoming waste stream includes chopping, extraction of metals, glass, and sand, so that approximately 2/3 of the feedstock is able to be run through the unit to produce fuel and electricity.

World Improvement through the Spirit (WITTS) Ministry

http://peswiki.com/index.php/Directory:World_Improvement_Through_The_Spirit_Ministries

Claims to have around 100 sundry exotic energy technologies for sale/license, including versions of gravity motors, engines that run on water, radiant energy devices (solid state or mechanical), inertial propulsion devices, and pollution remediation.

<http://www.witts.ws/>

Magnetic Power Inc.

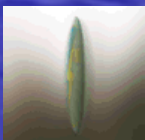

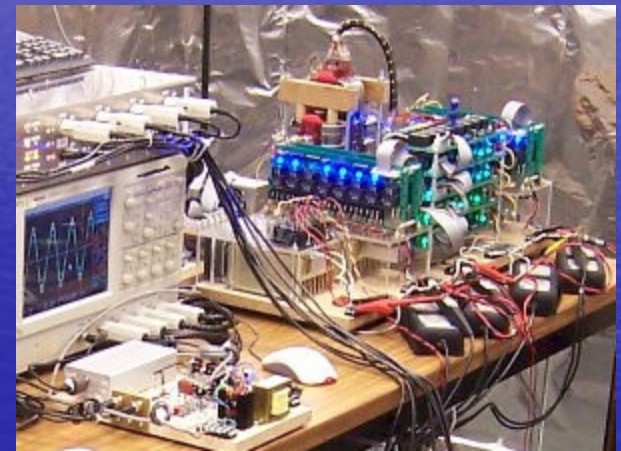

http://peswiki.com/index.php/Directory:Magnetic_Power_Inc

“Our work has the potential to dramatically assist the utility and automotive industries.”

Two large utilities are among major domestic companies that have signed NonDisclosure Agreements.

Company assets are being acquired by Chava Energy

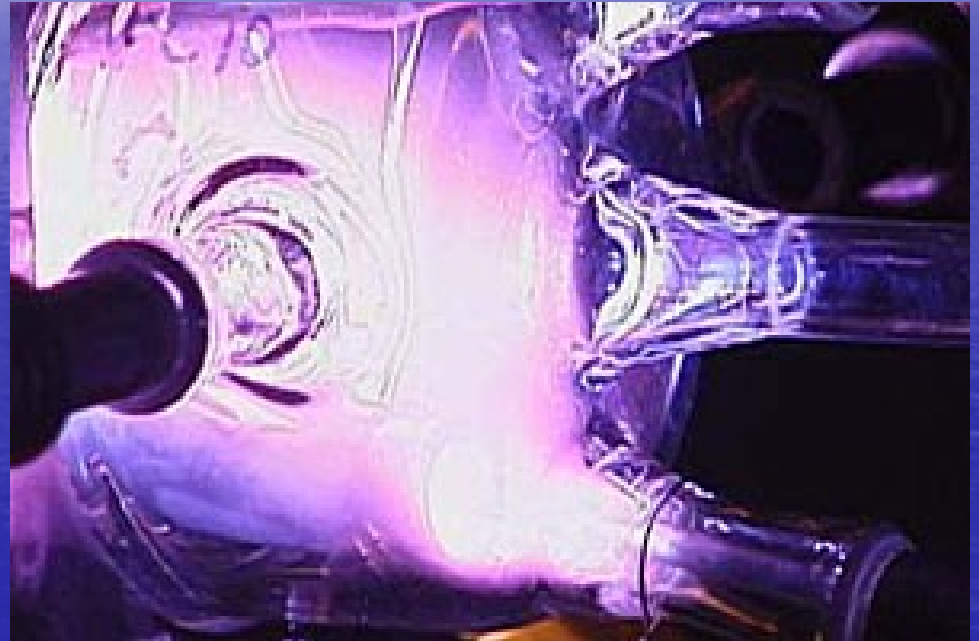

<http://www.chavaenergy.com>

BlackLight Power

http://peswiki.com/index.php/Directory:Blacklight_Power

BlackLight Power signs sixth utility deal to produce power from water - One of the more controversial and mysterious cleantech solutions on the market, announced today that it has landed a commercial licensing deal with Maryland-based utility **Akridge Energy**. This is the sixth such contract for the company, which claims to have technology capable of generating energy using only water. (*Venture Beat*, July 30, 2009)

**hydrogen + catalyst + heat →
"hydrino" + excess heat**

REMGen

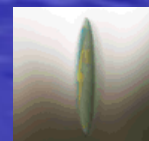

http://peswiki.com/index.php/Directory:REMGen_by_REM_Source%2C_LLC

REM Source, LLC of Oklahoma claims to have a production prototype home power free energy generator in the range of 5 – 12 kilowatts.

ROI estimate: 3-4 years.

Was going to give a semi-public demo on Aug. 7, 2009, but is going to keep it private for politics of science reasons.

<http://REMGen.com>
