PREMIUM EUROPEAN SPC FLOORS

# SPC FLOORS - BUYERS GUIDE

SPC Rigid Core Floors are an Ideal choice for the discerning buyer looking for a stylish flooring option that's built to last & perform at a reasonable price point.

SPC ( Stone Polymer Composite ) Rigid Core Floors have revolutionized the flooring industry with their impressive features & benefits. SPC is an engineered multi layered floor comprised of 75% Natural Stone and 25% combination of Virgin pvc, Minerals and Polymers fused together with high tech machinery.

## FEATURES & BENEFITS

**Surface Decors & Textures which provide the most Realistic Digital Replications of Natural Wood & Stone Floors | Durable & Long Lasting performance, with Lifetime Residential & 7-10 Year Commercial Warranty | 100% Waterproof | High Resistance to Dents, Wear, Scratches and Stains | Easy To Install & Maintain | Very Low Sound Transmission | Healthy Choice Flooring | Comfortable Feel | Room Temperatures Conformity | Reasonable Product & Install Cost.**

**General Areas of Use:** Ideal Choice for All Residential & Light to Medium Traffic Commercial Areas.

**Premium European Quality** – Produced using the Best Quality Raw Materials | High Tech Machinery | Skilled & Experienced Employees – with advanced technical knowledge.

**Endurance Tech Core** – Utilizing high tech extruders and an advanced formula, provides our products far superior compressive strength ( 2000kgm<sup>3</sup> ) compared to the competition. This allows the products to withstand high impact resistance and achieve long lasting performance

**Ultimate Shield Surface Coating** – This exclusive Double UV coating technology provides our products with industry leading Scratch | Stain | Wear Resistance.

**High Density IXPE Underpad** – With 10X Density provides impressive sound transmission qualities, mitigates minor sub floor imperfections and provides under feet warmth & comfort.

**Limited Warranty:** Lifetime Residential Warranty & 7 - 10 Year Light Commercial Warranty

## INSTALLATION:

**Locking Products** feature patented I4F & UNICLIC Technologies with Easy to install, Secure & Strong Mechanisms. Locking products are available in 5mm & 6.5mm Thickness and are the preferred choice for most applications:

**Glue Down Products** are a budget friendly option, ideal for residential & great for larger commercial applications. Once Installed these products look and perform just as well as the locking products.

## SIZE OPTIONS:

**7.13 X 48 – Locking Wood Inspired Plank ( BEST SELLER – IDEAL FOR MOST APPLICATIONS )**
