"Dear Mom. Don't forget to walk Buddy since I'm not there. I tried to save an extra hamburger for him but I got hungry. Love, Billy"

*"Dear Billy,
I loved your letter! Buddy's been going to the spa and loving life so don't worry about him. He misses you. And so do I.
Love, Mom"*

The Spa:

At All Kinds, we specialize in loving dogs. All sizes, all colors, and even 3-legged wonders. (We don't discriminate.) After a romp in the fields, a swim through the stream, and some nap time to recoup, they're all ready for treats. And we buy the good stuff.

Our main goal is the safety of our guests so each dog has a guardian who is crazy about canines. If an emergency were to happen, although we're incident-free here, we would contact your veterinarian first, and then the greatest person in his life: You.

If you need to work late, or if you just want her to have some fun on a Saturday, you won't want to miss this experience. Just make sure they've had "the surgery" before they get here so we won't need to have a puppy party. Then they can mingle. A couple of them even have girlfriends.

We can't wait to see you and your four (or 3!) legged sidekick.
