

I.P.A KIDS CRAFTS

Sun Catcher Craft

Here's what you'll need for this craft:

Black construction paper

Tissue paper in green (for Frankenstein's monster), white (for the ghost), or orange (for the jack-o-lanterns)

Contact paper

Googly eyes, optional (for Frankenstein's monster)

HOW TO MAKE SUNCATCHERS

First, you need to draw outlines on black construction paper of a ghost, jack-o-lantern, and Frankenstein's monster. Cut it out. As an alternative, you could just draw the outline on the non-sticky side of the contact paper using permanent markers.

Next, make some details like black eyes and a mouth for the ghost, facial features for the pumpkins, and features for Frankenstein's monster. Cut out these pieces.

Then you need to assemble the outlines and details on the sticky side of a piece of contact paper. I also put two googly eyes face down on the sticky side for Frankenstein, but this is optional.

Now the sun catchers are prepped for the kids to decorate!

Set out some tissue paper and encourage your child to rip (or cut) the tissue paper into small pieces and then placing them onto the sticky side of the contact paper.

Once the shapes are fully covered with tissue paper, place another piece of contact paper on top.

Then cut out the finished shapes to make the window art look nice and polished. And finally, hang them up on display in your windows.

THESE SUNCATCHERS WILL LOOK AWESOME IN YOUR WINDOWS
