

I.P.A ADULTS

Make a Pom Pom Ghost

Try making this cute Pom Pom Ghost craft. This incredibly easy DIY Ghost is fun for kids or adults to make and can be used as decoration around the house. Using scrap yarn, make this pom pom ghost for today.

SUPPLIES NEEDED

White yarn
Google eyes
Glue
Scissors

How to make a Pom Pom Ghost The I.P.A Way

HOW TO MAKE A POM POM GHOST

Wrap yarn around your hand. This is the beginning of the pom-pom. How many times you wrap helps to determine how big or small your ghost will be. There is no right or wrong amount.

yarn wrapped around a hand

Slide the yarn off your hand. Use a separate piece of string and create a handle to hang the ghost from. Slide the piece of yarn through the loops of the top of the yarn.

Next, tie another piece of yarn around the yarn. This is creating the head of the ghost. You want to tie the string a little higher than halfway.

Next, cut the ends on the bottom. This forms the bottom of the ghost. Normally when making a pom-pom you cut both ends. We are not cutting the other end because that is the head.

Next glue 2 googly eyes on the head.

Now you have a cute ghost that you can hang anywhere.

For another decoration idea, make several ghosts. Then add a long piece of yarn or rope through the handles and hang them like a garland.
