

I.P.A KIDS ACTIVITY

Emoji Ghost balloons

What's your FAVOURITE emoji?? One of the I.P.A favourite emoji's is the ghost. I mean, just look at how silly he is! And he is also the I.P.A Collection donation box too which we adopted! See picture right!

You will need

White 12" balloons
Printer paper
Tissue paper
Vinyl adhesive in black and pink (From Amazon)
Scissors
Hot glue gun

Here's how it's done

1. Inflate your balloons. Cut out tongue shapes, arms and eyes out of the vinyl adhesive. I printed out the emoji ghost, cut out each of its features, and traced them onto the vinyl.
2. Starting with a 20" x 26" sheet of white tissue paper, cut in half vertically and then cut in half horizontally. The piece you are left with is what you will be using on the balloon.
3. Cut a scallop along the long end and hot glue halfway up the balloon. (Almost like you're giving the balloon a beard. Ha!)
4. Fold over a small tab on the arms and hot glue to the sides of the balloon. Make sure to not use too much hot glue on this part or it will keep the balloon from floating again.
5. Remove the backing from the mouth and tongue vinyl adhesive stick in place on the ghost. Once they're placed, you can't remove them, so be careful about where you stick them down.
6. Repeat step 6 with the eyes of the ghost.

Ghost Imoji Balloon the I.P.A Way
