Our jellies are made from fruits grown on our farm or wild-sourced on our family property, with exception of apple. Apples are purchased from a local orchard. Jellies are prepared in our home kitchen in a traditional manner. Based on availability of fruit, we offer a wide variety of fruit and berry-based jellies. The ingredients of each jar are simple: fresh juice, granulated sugar and fruit pectin. Our jellies are all low sugar recipes, as well! We want you to enjoy the taste of the fruit and it's a little healthier for you, too. We use traditional glass jars with canning lids and rings. We also recycle jars and rings. You may notice a bit of rust on your jar's ring. If your jar arrives with a ring that's a bit rusty, congratulations! This means you have a recycled ring and are contributing to keeping our beautiful environment clean.

As a purchaser of jellies made from the best fruits the Earth has to offer, *you also receive our intentions of peace, good health and opportunity*. The jelly carries intentions for the future, but the outcome is yours alone. Fruits carry complex symbolic meanings and history, sometimes religion based, sometimes based on folklore, and clearly sometimes in disagreement. Eat the fruit and set your own intentions, customized for your life!

**Blackberries** carry dark symbolisms including loss or sorrow, remorse, the curse of Lucifer, and protection against earthbound spirits and vampires. An old African proverb says, "those who want to cross the river must not be afraid of getting wet." Blackberries may enable us to open our minds and hearts, taking time to grieve, or feel sorrow or remorse, preparing us to move on to a brighter future. Or, you can just joyously eat our fabulous Granny's Blackberry jelly and create your own happy reality, beginning with breakfast!

**Raspberries** primarily reflect a brighter outlook, symbolizing love, kindness, creativity, protection and grace, passion and imagination. They were, however, also believed to symbolize the blood of Christ via their dark red juices. We recommend inviting your lover, whoever they may be, to breakfast to share our tasty and inspirational Rockin' Raspberry jelly!

The symbolism of **Blueberries** is so hopeful that we believe every person should have at least one piece of blueberry toast! Blueberries are believed to bring good health, peace, protection, growth, transformation and renewal. The only potential negative is the representation of righteousness, possibly creating a scenario of conflict. For this reason, we don't recommend setting intentions related of righteousness, choosing peace is a great alternative, along with our Blueberry Bliss jelly.

**Wineberries** are relative newcomers to North America, migrating from Japan. In Japan, wineberries are connected to enlightenment and intuition. This berry, a cousin of raspberries, also has exceptional taste making it a beautiful choice. Our Red Wineberry jelly is sure to become a longstanding favorite!

**Elderberries**, like blackberries, may best be described as symbolizing complexity. The tree itself, sometimes referred to as Mother Elder, has much symbolism related to contradiction, protection, and strength. These traits are passed on through the berries, with the addition of sorrow and vivid dreams associated with the berries. Generally, Pagans saw positivity represented by the plant and

Christians found it a darker symbol because some Celtic legends believe the elder tree was used as the cross of Christ. Regardless, our Wild Black Elderberry jelly is a powerful, delicious treat to eat and share.

**Grapes**, much like just about everyone, are full of contradiction and opportunity. On one hand, grapes symbolize abundance, fertility and good luck; alternately, grapes may also symbolize suffering, debauchery, judgment and envy. Perhaps, best described as, "it's complicated", our Tangy Niagara, Classic Concord or Sweet Red jellies will offer you opportunities to reflect as you enjoy breakfast.

**Apples** are perhaps the most infamous fruit of all, thanks to the biblical adventures of Eve. Other cultures, however, have different perspectives. Apples symbolize a range of behaviors, including knowledge, immortality, temptation, love, sin, good health and/or luck and happy futures. Our Cinnamon Candy Apple jelly is guaranteed to give you a positive outlook on your day as you reflect on the power of the apple, and our version of Grandma's Applebutter is clearly a lucky treat.

**Pears**, like blueberries, have historic symbolic meanings that are covenanted by everyone. Symbolism including immortality, prosperity, grace, nobility, comfort, longevity and innocence are attached to the humble pear. Virtually no negative stigmas surround the pear. For maximum benefit, our Pear-Berry jelly (with blueberry) not only tastes great, but will offer you the best of positive vibe from both fruits.

**Peaches** are the fruit of longevity health, romance, vitality, pleasure and sensuality. Symbolically, peaches represent a positive, sunny outlook on life with expectations of energy and friendship or relationships. In China and Japan, peaches are associated with immortality and near magical qualities. Our Just Peachy jelly will brighten your day, and our Peach-Berry jelly (with blueberry) will offer you a double dose of a healthy, positive outlook to begin your day.

Our **Orchard Medley** jelly, which contains varying amounts of some or all of the fruits above and tastes absolutely fabulous, will offer you a well-rounded array of perspectives and opportunities to set your tone mood for the day. Medleys are like wrapped gifts, you don't know what's inside, but you can be sure it's something great!

Our **Wild Dandelion Honey** (jelly) is a limited edition jelly made each spring. It's 100% made from wild dandelions harvested from our farm fields. Dandelions symbolize rebirth, strength and power, and this jelly, when available will offer you a connection to mother earth and the hope of the future through its beautiful yellow color and honeylike taste.. Available only in spring and usually by special order. Watch for announcements on the farm Facebook page.

**Spicy Hot Pepper** jelly is also a limited edition, made from a combination of jalapeno and Hungarian hot peppers. Peppers, of course, spice up life and may symbolize excitement and hidden desires. Find your true self and enjoy!
