

Collaboration Agreement / Expression of Interest in the Collaboration

The undersigned _____ as representative of the following organization _____, located in the city of _____, declares:

- **available** to enter our Network, centred on the promotion of self-realization and personal growth of European citizens, since sensitive to the theme of self-realization;
- **available** to subscribe this document, which is only an agreement in principle and a general expression of interest;
- **available**, subsequently, to receive by email, from time to time, partnership's proposals, informative video calls, discussion tables, updating seminars and synergies related to specific direct and indirect European calls;
- **available to be present** (with my logo and link to my website) in the communications that we send to new potential partners to add to the network, so as to show them who has already joined the initiative;
- **available** to be present on the various platforms (websites, blogs, social medias) that will communicate, promote and manage the network and the direct and indirect activities that will involve it, or that the network itself will launch; please look at the websites of the three promoting subjects: Com2 srl (www.comdue.com), Divieni Chi Sei APS (www.divienichisei.it) and Life On Saturn (www.lifeonsaturn.eu); please check Become Yourself Network's official website (www.beyounet.eu)

*****We specify that the inclusion of the partner's logo on possible new websites will take place only with the explicit consensus of the partner, who will receive a notification and a form in which it will be able to indicate its agreement or denial to the inclusion of its logo on the new website.**

- **available** to evaluate and to offer, after reaching a satisfactory economic agreement for both parties, the supply of services and/or competences related to my field of expertise and activity, in the context of projects financed by the European Union and centred on self-realization, personal and professional growth and improvement, development of good practices and sensibilization to ecologic and ecosystemic behaviours.
